- **Ethics, gender, human values, environment & sustainability:** PHI 401 (Ethics: Indian and Western); PHI 305 C& PHI-405 C (Applied Philosophy), PHI 203 (Modern Indian Philosophy), PHI 204 (Contemporary Issues in Philosophy), PHI 205 (Western classics), PHI 304 (Contemporary Issues in Gender Studies)
- **The new optional courses introduced:** PHI 305 B (Vaiśeṣika Philosophy), PHI 305 D (Philosophy of Mind), PHI 305 E (Philosophical Issues in Mental Illness)

Note

1. The composition of elective papers offers a sense of complete thinking on the subject prevalent in Indian philosophy and Western philosophy. Indian Logic and Western Logic, Indian Metaphysics and Western Metaphysics, Indian Epistemology and Western Epistemology, and Philosophy of Indian Language and Western Language are a unique combination of elective subjects and offer a universal thought to the students.

2. On the other hand, the compositions of the special papers also do the same purpose. The combination of special papers is very much significant. Here also, the students will get a flavor of Indian and Western thought. Advaita Vedanta helps the students to have deeper knowledge of Indian tradition; whereas Advanced Logic offers a deeper sense of critical logical thinking and power of reasoning. Applied Philosophy will offer a deep sense of the burning issues of the environment. On the other hand, Philosophy of Mind opens the gate to do research in recent developments of Artificial Intelligence along with other traditional issues. The other combinations, such as Navya Nyāya and Vaiśeṣika Philosophy, Philosophical Issues in Mental Illness are also a frontier area of research.

In a word, the special papers offer a scope of cutting edge research to the students.
