4. Govindarajan, MARKETING MANAGEMENT CONCEPTS, CASES, CHALLENGES AND TRENDS, Prentice Hall of India, New Delhi.
5. K.S. Chandrasekar, MARKETING MANAGEMENT TEXT AND CASES, Tata McGraw-Hill Publication, New Delhi.

MAJOR-7
Human Resource Management

Credit: 4

Full Marks: 75

Course Objectives:

- To equip students with the necessary skills and techniques for effective Human Resource Management, within an organization

Course Contents:

Unit I: Human Resource Management:

Introduction and Importance and relevance of HRM -Evolution- Objectives of HRM- Difference between Personnel Management and HRM- Structure and Functions of HRM Department- Role and essential skills for Human Resource manager- The changing scenario of HRM.

Unit II: Job Analysis and Human Resource Planning:

Job Analysis- Job Description- Job Specification, Meaning and Objectives of HRP, Manpower planning vs. HRP- Factors affecting HRP, HRP process- Manpower Estimation- - limitation of HRP.

Unit III: Recruitment and Selection:

Factors affecting recruitment- Process- Sources- Stages in Selection process- Placement and Induction- Retention of Employees.

Unit IV Training:

Objectives and Needs- Training Process-Methods of Training-Tools and Aids- Evaluation of Training Programme.

Unit V Performance Appraisal:

Objectives-Methods- Errors in appraisal-New trends in Appraisal system- Potential Appraisal.

Unit VI Compensation Management:

Concepts and Components- Job evaluation- Incentives and Benefits.

Suggested Readings:

1. Aswathappa, Human Resource Management
2. Alan Price, Human Resource Management,
3. Garry Dessler & Varkkey, Human Resource Management,
4. Pravin Durai, Human Resource Management,
5. Snell, Bohlander & Vohra, Human Resources Management,
6. Venkata Ratnam C. S. & Srivatsava B. K., Personnel Management and Human Resources,
7. R. P. Banerjee, Art and Science of Management in Digital Era, 2024, 1st Ed, by Routledge.

MINOR

MINOR-3 Research Methodology

Full Marks: 75

Credits 04

Full Hours: 40

Course Objectives:

The course aims to develop in the students a research orientation which they are expected to possess when they enter the industry as practitioners. The main objective of this course is to introduce the basic components in research design and also the basic concepts of research methodology. This course addresses the issues inherent in selecting a research problem and discuss the techniques and tools to be employed in completing a research project. This will also enable the students to undertake report writing and framing research proposals.

Course Contents:

Unit I: Introduction -Research & Research Methodology, Quantitative and Quantitative Methods, Types of Research; Process of Research; Research Design-Exploratory, Descriptive, Causal; Formulation of the research problem-defining the research problem, selection of the problem. **(5 hours)**

Unit II: Data- Types, Sources of Primary and Secondary Data, Advantages and Disadvantages of Primary and Secondary data. data processing, editing, coding. Data Collection-Methods of collecting Primary Data- Observation, Interview, focus groups, Questionnaire, Schedule; Difference between questionnaires and schedule, Guidelines for constructing questionnaire/ schedule; Some other methods of data collection; Collection of secondary data, documentation sources, case studies. **(7 hours)**

Unit III: Measurement and Scaling: Meaning, types of scales, classification of scales, criteria for good measurement; Types of Scaling Techniques-Rating scale, Ranking scale, Arbitrary scales, Differential scale, Liker scale, Semantic scale; Sources of error in measurement, test of validity, reliability and practicality. **(6 hours)**

Unit IV: Sampling – Steps in sample design; Characteristics of a good sample design, need for sampling; Probability Sampling- Simple random sampling, Systematic sampling, Stratified sampling, Cluster sampling; Non-Probability Sampling-Convenience sampling, Purposive sampling, Quota sampling, Snowball sampling. **(6 hours)**

Unit V: Data Analysis- Presentation of Research Data, Frequency Distributions, Bar Charts, Histograms, Pareto Charts; Statistical Tools of Data Analysis - Mean, Median, Mode, Measures of Dispersion, Correlation, Regression, Qualitative Tools of DataAnalysis – Ethnography, Grounded theory, Case Study. **(8 hours)**

Unit VI: Report Writing: Significance of report writing, different steps in writing reports, layout of a research report, types of reports, mechanics of writing a research report, precautions for writing research reports. Research Proposal-purpose, importance and structure. **(8 hours)**

Suggested Readings:

1. Taylor, B., Sinha, G., Ghoshal, T. (2009). Research Methodology: A Guide for Researcher in Management and Social Sciences. India: PHI Learning Private Limited.
2. Kothari, C. R. (2019). Research Methodology: Methods and Techniques. India: New Age Publishers Pvt Limited.
3. Trochim, W. M. K., Donnelly, J. P. (2008). The Research Methods Knowledge Base. Germany: Cengage Learning.
4. Sadhu, A. N., & Singh, A. (2017). "Research methodology for social sciences". Sterling.
5. Munot, M. V., & Bairagi, V. (2019). Research methodology: A practical and scientific approach. CRC Press.
6. Panneerselvam, R. (2014). Research methodology. PHI Learning.

MINOR-4
Operations Management

Full Marks: 75

Credits 04

Full Hours: 40

Learning Outcomes:

At the end of the course, students should be able to:

1. To familiarize on the production concepts and its significance
2. To know the various inventory control methods
3. To understand role and importance of Operation Manager in an Organization
4. To apply Analytical Techniques for Forecasting and Scheduling of jobs and services
5. To understand Six Sigma Quality Standards and Statistical Control Charts
6. To design and plan models for the firm

UNIT-I:

Introduction to productions and operations management: Nature of production, productions and system, production as an organizational function, decision making in production, production management and operations management, Characteristics of modern production and operation management, organization of production function, recent trends in production/operations management.

UNIT-II:

Production process, manufacturing and service operations: production process, manufacturing operation, service operations, selection of process non-manufacturing or service operations, difference between manufacturing and service operations, classification of manufacturing process, manufacturing operations as conversion process, characteristics of modern manufacturing process,

UNIT-III:

Plant location & Plant layout – Location theories, freedom of locations, errors in selection, steps in location selection, relative importance of location factors, location models, Meaning, definition scope and of facility layout, factors influencing layout, types of layout, importance of layout, layout planning, layout tools and techniques, analysis if layout with computers, criteria for selection and design of layout, layout design procedure.

UNIT-IV:

Production and Inventory Control: Basic types of production – Basic Inventory Models – Economic Order Quantity, Economic Batch Quantity – Reorder point – Safety stock – Classification and Codification of stock – ABC classification – Procedure for Stock Control, Materials Requirement Planning (MRP). JIT.

UNIT-V:

Quality control – Purpose of inspection and quality control – control charts and acceptance sampling by variable and attributes. Sample plan OC curve, AQL, AOQL, LTPD.

Unit-VI:

Work and Method Study: Work Study Introduction, Definition, Concept, Objectives, Advantages, and Basic Procedure Method Study: Objective, Factor, and Procedure - Motion Study - Time Study -Work Measurement -Work Sampling - Ratio-Delay Method.

5. Konaru A (2018), *Professional Communication*, Tata McGraw-Hill

AEC -4
MANAGEMENT INFORMATION SYSTEM

Full Marks: 50

Credits 02

Full Hours: 20

Course Objectives:

1. To understand and assess the importance of information and its role in business.
2. To develop data analysing skills in students to evaluate information and the tools used for information processing.
3. To imbibe theoretical knowledge of MIS.
4. To imbibe theoretical knowledge of MIS in the students and prepare the students technological, competitive and make them ready to self-upgrade with the higher technical skills.

Course Contents:

Unit-I: Management Information System; Basic Concepts – Organization Structure – Business Functions – Role of MIS – MIS in Business - MIS Developing Process Models - Simon's Model in Information System – Major Trends in Information Technology.

Unit – II: Planning, Implementation and Controlling of Management Information System.

Unit-III: Managerial Decision Making; Decision Making Process – Relationship between Decision-Making and MIS–Group Decision Making - Integrating Managerial Levels and Functional areas by MIS-Components of MIS. System and Design; Systems Development Initiate

Unit-IV: Concept of System – Types of System, System Life Cycle Design - Prototype Approach - System Implementation.

Unit-V: Decision Support System; Definitions of DSS – Architecture of DSS - Scope of DSS - Characteristic and Capabilities of DSS - Components of DSS – Modules in DSS- Classification of DSS – Steps in Designing a DSS.

Unit-VI: Database Management System; Sources of Data – Architecture of Database Management System – Data Models – Implementation - DGMS.

Suggested Readings:

1. Jawadekar, Management Information System, Tata McGraw Hill, 2008, 7th Edition, New Delhi.
2. Arora, Management Information System, Excel Books, 2010, 4th Edition, New Delhi.
3. C.S.V. Murthy, Management Information System, Himalaya Publishing House, 2011, 11 Edition, Mumbai.
4. G. V. Satya Sekhar, Management Information

MULTIDISCIPLINARY COURSE (MDC)

MDC-3 BUSINESS ENVIRONMENT

Full Marks: 50

Credits 03

Full Hours: 30

Course Objectives

The course aims to familiarize students with the concept and significance of the business environment, highlighting its impact on organizational operations. UNIT VI: Legal Environment: Three political institutions: Legislature, Executive and Judiciary. Foreign Exchange Management Act (FEMA), Factors facilitating and impeding globalization in India. **(6 Hours)**

Suggested Readings:

1. Aswathappa, K. (2016). *Essentials of business environment: Text, cases and exercises* (13th rev. ed.). Himalaya Publishing House.
2. Cherunilam, F. (2011). *Business environment: Text and cases* (20th ed.). Himalaya Publishing House Pvt. Ltd.
3. Paul, J. (2018). *Business environment: Text and cases* (4th rev. ed.). McGraw Hill Education (India) Private Limited.
4. Ramachandara, A., & Ravi. (2017). *Business environment*. Himalaya Publishing House Pvt. Ltd.
5. Sheikh, S., & Sahu, J. (2020). *Business environment*. Pearson.
6. Upadhyay, (2010). *Business environment*. Asian Books Pvt. Ltd., New Delhi.

INTERNSHIP / APPRENTICESHIP (INT)

Summer Internship Project

Full Marks: 50

Credits 04

Hours: 120

Course Objective

It is an organized method or activity of enhancing and improving skill set and knowledge of management students which boost their performance and consequently helping them to meet their career objectives. Training is crucial for students because it is the best way to acquire as much mastery about their field as possible which helps in building confidence of the students. Training helps students to acquire the latest techniques, skills, methodologies and to build a strong foundation for their career growth.

Guidelines:

‘Summer Internship Project’ will be of 6-weeks duration and to be decided by the University/College. Students are supposed to prepare a project report and the report will be evaluated by the internal and external examiners. The students need to submit both hard copy and soft copy of the report.
