VIDYASAGAR UNIVERSITY
MBA: FIRST SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 101
Subject: Principles of Management and Organizational Behaviour
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

Objective of the course is to give a basic perspective of management theories and practices. This will form foundation to study other functional areas of management and to provide the students with the conceptual framework and the theories underlying organizational behavior.

Course Contents

Unit I: Introduction: Concept and Nature, Objectives of Management, Development of Management Thoughts: F. W. Taylor, Henri Fayol, Max Weber, Chester I. Barnard, Elton Mayo, etc.

Unit II: Planning: Concept and Nature, Types, Planning Premises, Importance, Steps in Planning Process, Long -range and Short-range Planning, Effective Planning.

Unit III: Organising and Staffing: Concept and Nature of Organizing, Characteristics, Formal & Informal Organizations, Principles of Delegation, Delegation of Authority, Authority-Responsibility Relationships, Staffing: Nature and Significance, A brief knowledge of Recruitment, Selection, Placement, and Induction.

Unit IV: Directing and Controlling: Concept and Nature of Directing, Techniques of Directing and Supervision, Controlling: Concept, Importance of Controlling, Types of Control, Steps in Control Process, Span of Control.

Unit V: Introduction to OB: Concept and Meaning of OB, Key Elements of OB, Nature of OB, Scope of OB, Models of OB.

Unit VI: Learning: Concept of Learning, Theories of Learning, Conditioning, Social Learning, Managerial Implication of Learning Theories.

Unit VII: Personality and Perception: Concept of Personality, Determinants of Personality, Personality Theories, Personality Types, Personality and Individual Differences, Influence of Personality on Organizational Behaviour. Perception: Concept, Factors Influencing Perception, Attribution Theory, Common Shortcuts in Judging Others

Unit VIII: Motivation: Concept of Motivation, Types of Motivation, Significance of Motivation, Theories of Motivation: Maslow, Herzberg, Mc Gregor, Alderfer, Mc Clelland, Reinforcement, Equity, Vroom, Goal Setting, Factors Affecting Motivation, Application of Motivation in Organizational Behaviour.

Unit IX: Leadership: Meaning of Leadership, Importance of Leadership, Characteristics of a Good, Leader, Leadership Styles, and Theories of Leadership – Trait, Behavioral, Managerial Grid, SLT, Transactional and Transformational Leadership.

Suggested Readings:

1. Koontz, H and Wehrich, H., *Management*, New York, McGraw Hill
2. Luthans, F., *Organizational Behaviour*, New York, McGraw Hill
3. Banerjee, M., *Organisation Behaviour*, Allied
4. Prasad, L. M., *Organisational Behaviour*, Sultan Chand
5. Robbins, S. P., *Management*, New Jersey, Englewood Cliffs, Prentice Hall Inc.
6. Robbins, S. P., *Organizational Behaviour*, New Delhi, Prentice Hall of India
7. Singh, Dalip, *Emotional Intelligence at Work*, Response Books, Sage Publications, Delhi

VIDYASAGAR UNIVERSITY
MBA: FIRST SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 102
Subject: Managerial Economics
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The purpose of this course is to apply micro economic concepts and techniques in evaluating business decisions taken by firms. It gives a basic understanding about the different aspects of economics which enable a decision maker to take optimal decisions. Beside this it can help the students to understand the concept of cost, nature of different markets along with different demand situations and critical variables determining the demand.

Course Contents

Unit I: Introduction: Concept and Definition, Nature, Uses, Scope, Managerial Decisions in Economics.

Unit II: Demand and Supply Analysis: Analysis of Individual Demand, Determinants of Individual and Market Demand, Elasticity of Demand, Forecasting of Demand; Determinants of Supply, Elasticity of Supply, Determination of Equilibrium Price, Indifference Curve Analysis, Price Determination through Market Forces & Changes in Equilibrium with Economic Application.

Unit III: Production and Cost Analysis: Short-run & Long-run Concept of Production, Production Function, TP, MP, AP, Three Stages of Production, MRTS, Profit Maximization: Choices of Input Combination, Law of Variable Proportions, Returns to Scale, Cost, Revenue, Cost Output Relations, Economics of Scale, Economic Profit & Accounting Profit, Short-run Cost & Long-run Cost Functions of Firms and Industry, Diseconomies of Scale and Its Importance from Management Perspective, Break-Even Analysis.

Unit IV: Market Structure: Different Types of Market and Determination of Equilibrium Price, Pricing Theories and Strategies, Perfect Competition, Impact of Tax Imposition under Perfect Competition, Monopoly, Market Power, Monopolistic Competition, Concept of Excess Capacity,

Determination of Equilibrium Price & Output under Oligopoly: Non-collusive Oligopoly, Collusive Oligopoly, Cartels, Market Sharing Cartels, Tacit Collusion.

Unit V: Basic Issues in Macro Economics: Concept of National Income and Measurement, Aggregate Demand and Aggregate Supply, Government Macroeconomic Policy, Consumption Function, Investment Function, Demand and Supply for Money, Inflation & Economy, International Trade: Advantages, BOP.

Unit VI: Business Cycles: Concept, Phases, Theories, Fiscal and Monetary Policies to control business cycles.

Unit VII: Pricing Practices: Price Discrimination & Dumping in the Real World, Peak Load Pricing, Tying, Bundling, Transfer Pricing, Promotional Pricing & Discounting.

Unit VIII: Market Prediction & Failure: Externalities, Asymmetric Information: An Introduction to Asymmetric Information, Adverse Selection, Moral Hazard Problem.

Suggested Readings:

1. Samuelson and Nordhaus, *Economics*, Tata McGraw Hill
2. Salvatore, D., *Microeconomics Theory and Applications*, Oxford
3. Ahuja H L, *Managerial Economics*, S Chand
4. P. L. Mehta, *Analysis, Problems, and Cases*, Sultan Chand
5. Sampat Mukhopadhyay, *Managerial Economics in the Global Context*, Central
6. Thomas C R and S Charles Maurice, *Managerial Economics*, The McGraw-Hill Co
7. Damodaran Suma, *Managerial Economics*, Oxford
8. Dornbusch R, Stanley Fisher and Richard Startz, *Macroeconomics*, Tata McGraw Hill
9. Dwivedi D. N., *Macroeconomics Theory and Policy*, Tata McGraw Hill Education Priv

VIDYASAGAR UNIVERSITY
MBA: FIRST SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 103
Subject: Statistics for Business Decisions
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

This course is designed to foster the development of foundational statistical skills that are necessary for day-to-day business analysis. This purpose of this course is to provide students with statistical tools needed by managers. The course emphasizes understanding the process associated with statistical decisions, defining and formulating problems, analyzing the data, and using the results in decision making.

Course Contents

Unit I: Introduction to Statistics: Meaning and definition, functions, scope and limitations, collection and presentation of data, frequency distribution.

Unit II: Measures of Central Tendency: Computation of mean, median, mode, applied areas in business.

Unit III: Measurement of Dispersion: Relative and absolute measures, variances, coefficient of variance, concept of skewness and kurtosis, applied areas in business.

Unit IV: Correlation and Regression: Concept of correlation, types, various measures, concept of regression, regression equation, trend equation, applied areas in business.

Unit V: Probability Theory: School of Thoughts: Classical Approach, Relative Frequency Approach, Axiomatic Approach; Set Theory; Random Experiment, Probability Laws.

Unit VI: Probability Distributions: Binomial, Poisson, Normal and other distributions; Their Assumptions, Characteristics and Applications.

Unit VII: Sampling and Sampling Distribution: Purpose and Principles of Sampling; Population, Methods of sampling (Probability and Non-Probability); Sampling and Non-Sampling Errors; Sampling Distributions and their Characteristics.

Unit VIII: Testing of Hypothesis: Formulation and Testing procedures, Drawing Inferences and Estimation of Errors; Assumptions underlying the tests; Parametric Tests: Z- test, t- tests, ANOVA; Non- parametric Tests: Wilcoxon signed-rank Test, Mann- Whitney U Test, Kruskal-Wallis H- test.

Suggested Readings:

1. Gupta, S.P., *Statistical Methods*, Sultan Chand & Sons., New Delhi.
2. Goon, Gupta & Dasgupta, *Fundamentals of Statistics*, Vol. I & Vol. II.
3. Goon, Gupta & Dasgupta, *An Outline of Statistical Theory*, Vol. I & Vol. II.
4. Arora, S., Arora, S. and Arora, P. N., *Comprehensive Statistical Methods*, S. Chand
5. Bajpai, N., *Business Statistics*, Pearson Education, New Delhi.
6. Heinz, Kohler, *Statistics for Business & Economics*, Harper Collins, New York.
7. Hien, L.W., *Quantitative Approach to Managerial Decisions*, Prentice Hall, New Jersey.
8. Morse, Lawrence B., *Statistics for Business & Economics*, Harper Collins, N.Y..

9. Bhalla, V. K., *Financial Management and Policy*, Anmol Publication, New Delhi

VIDYASAGAR UNIVERSITY
MBA: FIRST SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 202
Subject: Marketing Management
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

This course enables the student to understand the fundamentals of marketing concept and the role marketing plays in business. This course enables a student to understand the 'Marketing mix' elements and the strategies and principles underlying the modern marketing practices. Students should be able to demonstrate their comprehension of marketing concepts and knowledge by applying those in their written exams, case studies discussions, presentations and projects. The assignments/projects would enable students to apply the marketing concepts and marketing mix elements practically and illustrate those through a written report and presentation. The course methodology encourages students to explore for themselves the role of a marketing manager and the boundaries of marketing. Classroom activities including lectures, discussions and case studies will be designed to encourage students to get involved, absorb and assimilate inputs. These activities will also be supplemented by group discussions, cooperative group solving problems, live projects, analysis of video cases and debates.

Course Contents

Unit I: Introduction to Marketing: Nature and Scope of Marketing, Marketing Concepts, Marketing Mix and its application, Customer Value, Holistic Marketing. Marketing Environment: Environmental monitoring, Micro and Macro Environment, Understanding the impact of Macro and Micro environment on Marketing.

Unit II: Identifying and Selecting Markets: Bases for segmentation and Purpose, Selection of Target Market and Positioning Strategies. Niche Market, Consumer Buying Behaviour, Organizational Buying Behaviour, Factors influencing Consumer Behaviour, Decision Making Process.

Unit III: Strategic Marketing Planning Process: Competitor analysis, Marketing Warfare Strategies, Marketing Planning Process

Unit IV: Product Management-Concept of Product, Product Levels, Classification of Products, PLC, Marketing strategies at various stages of PLC, New Product Development, Product Positioning, Product Line and Product Line decisions, Product Mix, Branding Decisions, Brand equity, Packaging, Labelling.

Unit V: Pricing Objectives, Developing Pricing Strategies: Setting Price, Factors influencing Price Determination.

Unit VI: Channels of Distribution: Designing Distribution Channels, Managing Conflicts and Controls in Channels, Retailing, Wholesaling and Logistics.

Unit VII: Marketing Communication: Role of Promotion in Marketing, Integrated Marketing Communication, Determining Promotional Mix, Advertising, Sales Promotion Public Relations, Personal Selling and Sales Management.

Unit-VIII: Recent trends in Marketing- Social Media Marketing, Green marketing, Phygital marketing, Viral Marketing, Masstige marketing, Experiential marketing and other emerging trends.

Suggested Readings:

1. Kotler, Philip and Armstrong. G., *Principles of Marketing*, New Delhi, Prentice Hall of India.
2. Philip Kotler, Kevin Lane Keller, Abraham Koshy, Mithileshwar Jha, *Marketing Management*, Pearson
3. Ramaswamy, V. S. and Namakumari, S., *Marketing Management: Planning, Control*, New Delhi, MacMillan
4. Neelamegham, S., *Marketing in India: Cases and Readings*, New Delhi, Vikas Publishing.
5. Stanton, William, J. *Fundamentals of Marketing*, New York, McGraw Hill
6. Tapan K Panda, *Marketing Management- Text and Cases*, Excel Books

VIDYASAGAR UNIVERSITY
MBA: SECOND SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 203
Subject: Human Resource Management
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The main objectives of this course are to make student to be able to understand- The functions, systems, policies and applications of Human Resource Management in organizations. This course also focuses to teach the basic principles of human resource management—how an organization acquires, rewards, motivates, uses, and generally manages its people effectively. In addition to providing a basic legal and conceptual framework for managers, the course will introduce the manager to practices and techniques for evaluating performance, structuring teams, coaching and mentoring people, and performing the wide range of other people related duties of a manager in today's increasingly complex workplace.

Course Contents

Unit I: Introduction: Concept and perspective in HRM, scope, structure of HR department, roles, functions of HRM, line and staff functions, differences between HRM and personnel management, HRM in changing environment, new challenges.

Unit II: Job Analysis and Human Resource Planning: Nature of job analysis, Job description, Job specification, job design, Job evaluation, Human resource planning, process and techniques, demand forecasting, HR supply forecasting, factors influencing HRP.

Unit III: Recruitment and Selection: Meaning of recruitment, external and internal sources of recruitment, selecting human resources, placement and induction.

Unit IV: Training and Development: Meaning of training and development, methods of training and development, TNA, nature of HRD program, methods of management development and executive development programs, career management, talent management

Unit V: Performance Appraisal: Meaning, traditional and modern methods, problems in Appraisal, potential assessment, errors in appraisal, basic issues in compensation management.

Unit VI: Strategic HRM: Concept, characteristics and scope of SHRM, SHRM Vs HRM, barriers to strategic HRM

Unit VII: Exit Policy and Implications: Meaning, concept, importance, implications in organisations.

Unit VIII: HRM for Multinational Organizations.

Suggested Readings:

1. Khanka, S. S., *Human Resource Management: Text & Cases*, S. Chand & Co. Ltd.

VIDYASAGAR UNIVERSITY
MBA: SECOND SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 204
Subject: Research Methodology
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

At the end of this course, the students should be able to understand some basic concepts of research and its methodologies in order to identify appropriate research topics. They will be able to select and define appropriate research problem and parameters and prepare a project proposal. They will organize and conduct research in a more appropriate manner and to write a research report accordingly.

Course Contents

Unit I: Introduction: Meaning of research, objectives of research, significance of research, types of research, research process, criteria of good research, social science research - limitations, ethics in social science research.

Unit II: Formulation of Research Problem: Defining a research problem, problem identification, review of literature, research gap.

Unit III: Research Design: Meaning, need for research design, basic features of a good design, types of research designs –exploratory research, descriptive research, causal research, and experimental research.

Unit IV: Sampling Design: Introduction, sampling techniques, probability sampling techniques: simple random sampling, systematic sampling, stratified sampling, cluster sampling, non-probability sampling: convenient sampling, judgment sampling, quota sampling, snowball sampling, sample size, sampling and non-sampling errors.

Unit V: Data Collection: Collection of primary data, collection of data through questionnaire, collection of data through schedule, difference between questionnaires and schedule, guidelines for constructing questionnaire/schedule, some other methods of data collection, collection of

secondary data, selection of appropriate method of data collection, data processing, editing, coding.

Unit VI: Measurement and Scaling: Meaning, types of scales, classification of scales, criteria for good measurement.

Unit VII: Hypothesis Testing: Concepts of hypothesis testing, hypothesis tests for a population mean, tests for normality, correlation, bivariate and multivariate regression, chi-square test for independence, one-way Anova, two-way Anova, factor analysis, non-parametric methods - sign test, Mann Whitney u test, Kruskal Wallis test, etc.

Unit VIII: Report Writing: Significance of report writing, different steps in writing reports, layout of a research report, types of reports, mechanics of writing a research report, precautions for writing research reports.

Suggested Readings:

1. Kothari, C.R., *Research Methodology – Methods and Techniques*, Wiley Eastern
2. Sadhu, A. N. and Singh, A., *Research Methodology for Social Sciences*, Sterling
3. McBurney, *Research Methods*, Thomson Learning
4. Cooper, D. R. and Emory, C. William, *Business Research Methods*, Irwin
5. Mann Prem S., *Introductory Statistics*, Willey Student Edition
6. Cooper. D.R., Schindler. P.S., *Business Research Methods*. Mc Graw-Hill Education
7. Chawla. D, Sondhi. N., *Research Methodology Concepts and Cases*. Vikas Publishing House

VIDYASAGAR UNIVERSITY
MBA: SECOND SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 205
Subject: Legal and Business Environment
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The objective of the course to acquaint students with the issues of legal and business environment in which business has to operate and to give an exposure to important Legal aspects of business.

Course Contents

Unit I: Introduction: concept of law, rule of law, mercantile law.

Unit II: Indian Contract Act, 1872: Contract meaning, elements of valid contract, classification of contracts, offer and acceptance, consideration, capacity to contracts, free consent, legality of object and consideration, illegal agreements, termination of contracts, breach of contract, indemnity and guarantee, agency.

Unit III: Partnership Act, 1932: Definition of partnership, partnership deed, rights and duties of partners, types of partners.

Unit IV: Sale of Goods Act, 1930: Definition of contract of sale, classification of goods, Condition and warranties, rights of unpaid seller against the goods, remedies for breach.

Unit V: Companies Act, 1956: Definition, types of company, memorandum of association, articles of association, prospectus, directors; power and duties.

Unit VI: Consumer Protection Act, 1986: Aims and objectives, mode of complaints, Procedure for Complaints under the Act, enforcement of Orders and penalties, laws relating to patents, trademarks, copyright, cyber-laws, RTI, Protection of Women's' rights.

Unit VII: Overview and Framework of Business Environment: Characteristics of business environment, micro and macro business environment, tools and techniques of business environment analysis; internal business environment, external business environment, PESTEL, product-market analysis, portfolio analysis, balance score card, porter five force model etc.

Unit VIII: Economic Environment: The Indian economic system, nature of economy, development strategy; economic policies; fiscal policy and tax system; monetary and credit policy.

Unit IX: Socio-cultural and Demographic Environment: Society and business, social class structure, social mobility, education, life style, religion, institutions etc.

VIDYASAGAR UNIVERSITY
MBA: SECOND SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 206
Subject: Production and Operations Management
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The Production & Operations Management course aims to provide students with a critical understanding of the scope and strategic importance of production & operations management and the role of production & operations managers; and an appreciation of the interaction of operations with the organisation, employees and customers. You will gain a critical understanding of the nature and importance of production & operations management, not only in your own but in other organizations competing in the global environment.

Course Contents

Unit I: Introduction to Production & Operations Management: Concept and meaning, role and scope of production management, nature and types of production, Definition of operations management, factors affecting operations management, objectives of operations management, functions and scope of operations management, productivity, operations planning and control.

Unit II: Operations Strategy: Meaning of operations strategy, hierarchy and flow, current global business conditions, operations strategy as a competitive weapon, elements of operations strategy, and operations strategy in services.

Unit III: Forecasting: Concept of forecasting, purpose of sales forecasting, basic elements of forecasting, importance of forecasting, objectives of forecasting, classification of forecasting, qualitative and quantitative techniques of forecasting.

Unit IV: Production & Operations Technology: Importance of operations technology, types of operations technology, manufacturing systems or production systems: continuous production system (cps), characteristics of continuous production system, intermittent production system, automation: meaning, importance and elements, Computer Aided Design (CAD), Computer-Aided Manufacturing (CAM), Flexible Manufacturing System (FMS), Computer-Integrated

Manufacturing System (CIMS), Automatic Identification Systems (AIS), Enterprise Resource Planning (ERP), Need for Enterprise Resource Planning.

Unit V: Plant Location and Layout: Definition and objectives of plant location, importance of location, locating foreign operations facilities, location decision process, layout planning: advantages and functions of layout planning, principles of layout, layout varies on facility types, flow patterns, objectives of a good plant layout, factors for a good plant layout, types of layout, methodology of layout planning.

Unit VI: Work Study: Work study: definition, objectives, significance and advantages, importance and scope, various models, work study as a science, work study and productivity, method study: definition, objectives and procedure, objectives of method study, method study procedure, Threbligs, work measurement, objectives of work measurement, techniques of work measurement.

Unit VII: JIT and Quality: Definition of Just-In-Time (JIT), process of JIT, quality: costs of quality, characteristics of quality, quality of the process, seven tools of statistics, quality planning and improvement tools, specification and control limits, Total Quality Management, principles of TQM, Deming's 14 points, six sigma.

Suggested Readings:

1. Chary, S. N., *Production and Operations Management*, Tata McGraw-Hill

3. Adam, *Production and Operations Management*, Pearson Education/ PHI
4. Nair, N. G., *Production and Operations Management*, Tata McGraw Hill
5. Morton, *Production and Operations Management*, Vikas
6. Panneersalvam, *Production and Operation Management*, PHI
7. Altekar, *Production Management*, Jaico
8. Oakland, Muhlemann, J. and Lockyer, K., *Production and Operations Management*, Macmillan
9. Bedi, *Production and Operations Management*, Oxford University Press
10. Chase, R. B. and Aquilano, N. J., *Production and Operations Management*, Irwin

VIDYASAGAR UNIVERSITY
MBA: SECOND SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 207
Subject: Summer Internship Project
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

It is an organized method or activity of enhancing and improving skill set and knowledge of management students which boost their performance and consequently helping them to meet their career objectives. Training is crucial for students because it is the best way to acquire as much mastery about their field as possible which helps in building confidence of the students. Training helps students to acquire the latest techniques, skills, methodologies and to build a strong foundation for their career growth. It helps in boosting the career of students, since by the end of this training; students are turned into professionals in their specialized area.

Note:

‘Summer Internship Project’ will be of 6-weeks duration during the period to be decided by the Department, preferably during the months of April and May every year. Students are supposed to prepare a project report and the report will be evaluated by the internal and external examiners. The students need to submit two hard copies of the report.

VIDYASAGAR UNIVERSITY
MBA: SECOND SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 208
Subject: Project Presentation and Viva-Voce
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The main objective of project presentation & viva is to evaluate the training performance of the students. It is viewed that whether the students have gained the practical knowledge where the students have undergone for training. Students are asked to present a report before the examiners for the purpose of evaluation.

Note:

Students are supposed to present their project report (through Power Point) before the internal and external examiners followed by viva-voce.

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 302
Subject: Business Plan Development and Presentation
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

Business planning is an essential component of successful business management. This course will help the students to formulate strategic plan for unforeseen events as well as new competitors that enter the marketplace. It is necessary for business owners to create a set of planning objectives that effectively outline how the business will be run, potential risk factors and effective marketing strategies. It will enhance the entrepreneurial mindset of the management students. Students will submit their individual business plan and present it before the internal as well as external faculty members. The students are supposed to include the following points into their business plan:

Components of a Business Plan

The business plan should be clear and concise. A person outside of your industry should be able to understand it. It should contain all the key information about your startup from what your product is about to how much money you require to build it. Here are the 11 key elements that should be included in every business plan:

Executive Summary: This is a brief overview of the entire business plan. This section of the business plan decides whether the stakeholders or investors will continue reading the plan or not. It includes a brief overview of the business idea, the offering, business goals, target market, competition, USP, the team and the financial outlook for the business.

Company Description and Synopsis: This section of the business plan explains the company's mission, philosophy, goals, industry, legal structure, and USP briefly but is more elaborate than the executive summary. The details are followed by the problem the company is solving for the customers and the solution which makes it stand out of the competition.

Market Overview: This section explains the current market scenario of the industry, the size of the market, market trends, success stories, what is working and what isn't, and what is being favoured and expected by the customers in the market. This section gives the readers a reason to believe why the company chose the market stated. Usually, everything in this section is supplemented with a bundle of facts, stats, and figures to prove that the entrepreneurs have done their research before choosing this as an apt market for their offering.

Customer Analysis: The customer analysis sections include the persona of the prospective customer, which includes his/her demographics, geographics, psychographics, needs, wants, desires, buying habits, etc.

Product/Service Overview: This is a section dedicated to the offering the company will be providing to the customers. It answers all the what, why, where, and when questions related to the product and reiterates the previous stance of why it is the perfect solution for the problem stated.

Business Model: The business model is the conceptual structure that explains how the company works or will work. This section will answer the question of how it will provide the offering in the market and why is the offering viable.

Revenue Model: The revenue model explains how the company is planning to earn money using the business structure explained in the business model section. It explains the intricacies of the expenses and revenue sources of the company.

Competitive Analysis: This section is dedicated to explaining who the competitors are, what are their USPs, and what are the strategies used by the business to tackle them.

Marketing Plan: The marketing plan acts as an inference of all the details explained earlier. This section provides the details on how the company plans to use the information mentioned above in formulating and executing their marketing strategies. The marketing plan is an important section of the business plan as it explains how the company is planning to reach out to the customers and stand out of the competitors. That being said, the marketing plan isn't limited to the promotion of the offering. It includes a holistic strategy to market the offering right from production to post-sales.

Management Team: This section gives the information of all the members on board, their qualifications, experience, and their posts in the company.

Funding and Financials: Funding and financials form the conclusion, but it is the most important section of the business plan for startups as it states the cost of the execution of the business plan. It includes all the short-term and long-term financial requirements and funding goals and how the investors can help the company to achieve them.

Specialization: Finance

VIDYASAGAR UNIVERSITY

MBA: THIRD SEMESTER

(Effective from 2022-23)

Paper Code: MBA- 306A

Subject: Banking and Financial Institutions

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The course shall broaden the knowledge base of the students regarding different financial institutions that connect the savers and investors, their role and importance in the economy, the functions they perform and other recent developments in this sector. The students will gain a fundamental understanding about the working of the banking and other important financial institutions.

Course Contents

Unit I: Introduction: Importance of Banking to Business, Types of Banks: Commercial Banks in India – Public Sector and Private Sector and their Functions. Role in economic development

Unit II: Reserve Bank of India: Objectives, Roles and Functions of RBI, Monetary Policy of RBI.

Unit III: Banking Sector Reforms: Reforms in India, NPA, Capital Adequacy Norms, Consolidation in Banking

Unit IV: Rural Banking: Role, Objectives and Functions of Rural Banking System in India.

Unit V: NABARD: Role, Functions, NABARD's performance towards rural development and rural credit

Unit VI: E-banking: Electronic Payments: About NPCI, Payment – Gateway Example, Securities in E-banking: SSL – Digital Signatures – Examples, Services Provided: ATM, Smart Card, ECS (Electronic Clearing System) and NACH, Electronic Fund Transfer: NEFT, RTGS, IMPS and UPI

Unit VII: Insurance: Role of Insurance in Economic Growth, Life Insurance, General Insurance, Reinsurance, Micro Insurance, Social Insurance in India, Role of IRDA

3. Edwards, T. *International Human Resource Management*, Pearson Education.
4. Aswathappa, K., & Dash, S. *Human Resource Management: Text and Cases*. McGraw Hill Education.
5. Lall, M., & Zaidi, S. Q. *Human Resource Management*. Excel Books.

VIDYASAGAR UNIVERSITY

MBA: THIRD SEMESTER

Paper Code: 308H

Subject: Organizational Change and Development

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

In today's highly competitive and dynamic business environment, it is more important than ever for managers of all disciplines to be able to effectively deal with the wide range of organizational challenges with which they are presented. This course touches upon the full spectrum of organization development (OD) tools and methods which can be utilized to increase organization effectiveness. Students will gain an understanding of all aspects of OD including definitions and process models, leading change, elements of discovery and diagnosis, interventions for individuals, groups and organizations, and organization transformation. While theories are discussed to provide a foundation for learning, the emphasis of this course is to provide students with highly practical problem-solving tools which they can quickly take back to any work environment and apply to real-world challenges and opportunities for growth.

Course Contents

Unit-I: Introduction to Organisational Change & Development: Concept of organisational change & development, definition of organisational change & development, characteristics of organisational change & development, objectives of organisational change & development, importance of organisational change & development, relevance of organisational change & development

Unit-II: Background of Organisational Development: Historical aspect, laboratory training, survey feedback, action research, sociotechnical approach, and second-generation OD: modern development

Unit-III: Underlying beliefs, values and assumptions: definition of beliefs, values and assumptions, assumptions based on individuals, assumptions based on group, assumptions based on organisation, and beliefs and values of change agents and behavioural scientists

Unit-IV: The Change Process: Organisational change, types of organisational change, the forces of organisational change, the change approaches, the planned change, models of planned change, criticism of planned change models, opposition to organisational change, and strategies for overcoming change opposition

Unit-V: The OD Practitioner: Concept of OD practitioner, competencies of OD practitioner, styles of OD practitioner, ethics for OD practitioner, and the process of collecting data

Unit-VI: OD Interventions: OD interventions – definition, concept of OD interventions, factors affecting success of OD interventions, different types of OD interventions, and OD interventions - assessment

Unit-VII: The Future and OD: Future trends in OD, macro trends, interpersonal trends, individual trends, and future of OD.

Suggested Readings:

1. Cummings & Worley, *Organizational Development and Change*, Thomson South-Western.
2. Beckhard, R. *Organization Development Strategies and Models*, Addison-Wesley.
3. WendeelL. French and Cecil H.Bell, *Organization Development*, Pearson Publication.
4. Srivastava, B. *Organizational design & Development- Concepts and applications*, Biztantra.
5. Khadwalla, P. N. *Organizational Design for Excellence*, McGraw Hill Education.

Specialization: Business Analytics and Data Science

VIDYASAGAR UNIVERSITY

MBA: THIRD SEMESTER

Paper Code: MBA- 309A

Subject: Fundamentals of Data Analytics

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objectives: After successful completion of this course students will be able to understand the concept of Analytics and learn to use of Statistical Methods for Analytics. The course will provide the understanding about the concept of descriptive and Inferential Statistics and the knowledge about basic programming logic and technique.

Course Contents

Unit I: Introduction: Introduction to Data Science, Role of a Data Scientist, Big Data, Types of Data, Data Formats.

Unit II: Descriptive Statistics: Measures of Central Tendency, Measures of Variability, Variance and Standard Deviation, Skewness & Kurtosis.

Unit III: Inferential Statistics: Sampling Distribution and Estimation, Correlation & regression Analysis, Hypothesis Testing (Parametric and Non- Parametric), Significance in Data Science.

Unit IV: Types of Analytics: Descriptive Analytics, Diagnostic Analytics, Prescriptive Analytics, Exploratory Analytics, Predictive Analytics, Mechanistic Analytics, Casual Analytics, Inferential Analytics.

Unit V: Programming Fundamentals: Developing programming logic and technique through algorithm and flow charts, Concepts of object orientation and programming in C++ and Java.

Unit VI: Data Base Management System: Concepts of Data Base Management, Relational Data Base Management System, Data warehousing, Data fetching through query generation.

Suggested Readings

1. Gupta and Kapoor. *Fundamentals of Mathematical Statistics*, Sultan Chand & Sons.
2. Aczel, A. *Complete Business Statistics*, Tata McGraw Hill Education.
3. Srivatsava, T. N. Rego, S. *Statistics for Management*, Tata McGraw Hill.
4. Kumar, U. D. *Business Analytics: The Science of Data - Driven Decision Making*, Wiley.
5. Wade, W. *An Introduction to Analysis*, Pearson India.
6. Lind, D. A., Marchal, W. G., & Wathen, S. A. *Statistical Techniques in Business & Economics*. McGraw-Hill Education.
7. Newbold, Carlson, Thorne: *Statistics for Business and Economics*, Pearson.

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 309B
Subject: Data Science Using R
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objectives: After the successful completion of this course students will learn Programming and Modelling in R. They will be able to understand Mining Algorithms using R, Market Based Analysis. This course will help students in developing the understanding about Predictive modelling using R and the concept of Machine Learning. Students will also be able to learn about Segmentation Analysis, Clustering, Principal Component Analysis.

Course Contents

Unit I: Programming in R: Basics of R, Conditional and loops, R packages/libraries, Data mining GUI in R, Data structures in R, Exceptions/ debugging in R

Unit II: Data Wrangling: Reading CSV, JSON, XML, .XLSX and HTML files using R, ETL operations in R, Sorting/ merging data in R, Cleaning data, Data management using R

Unit III: Modelling in R: Linear regression model in R, Multiple linear regressions model, Representation of regression results, Non-Linear Regression

Unit IV: Classification: Definition, Data Generalization, Analytical Characterization, Analysis of attributes relevance, Mining Class comparisons, Statistical measures in large Databases, Statistical-Based Algorithms, Distance-Based Algorithms, Decision Tree-Based Algorithms.

Unit V: Clustering: Introduction, Similarity and Distance Measures, Hierarchical and Partitional Algorithms. Hierarchical Clustering CURE and Chameleon. Segmentation analysis- types of segmentation, k-means clustering, Bayesian clustering, Principal Component Analysis, Case Study

Unit VI: Data Mining process- CRISP -DM Methodology, Data Collection and Business understanding, Data and Datasets, importing data into R, Data Pre-processing: Data Cleaning, Transforming variables, creating variables, Dimensionality Reduction, Modelling: Exploratory data analysis, dependency modelling using association rules, clustering, anomaly detection.

Suggested Readings:

1. Wickham, H., & Golemund, G. *R for Data Science*. Shroff/O'Reilly.
2. Kabacoff, R. I. *R in Action*, Manning.
3. Lander, J. P. *R for Everyone: Advanced Analytics and Graphics*, Pearson Education India.
4. Crawley, M. J. *The R Book*, Wiley.
5. Zhao, Y. *R and Data Mining: Examples and Case Studies*, Academic Press.
6. Seema Acharya: *Data Analytics using R*, McGraw Hill Publication
7. Torgo, L. *Data Mining with R: Learning with Case Studies*, Chapman and Hall/CRC

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 309C
Subject: Business Forecasting Using IT and ITES
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objectives: By the end of this Course Students will develop the concept of Business Forecasting. They will be able to learn the analysis of time series data set. The course will also provide the programming knowledge of E-Views and R studio for times Series Forecasting

Course Contents

Unit I: Historical perspective of Business Forecasting: Concept of Business forecasting, Difference among Econometrics, Mathematics and Statistics, Importance of Econometrics, Linkage of Econometrics with Business Forecasting-Types of Data

Unit II: Regression Model: Steps, Linear, Non-linear.

Unit III: Univariate time series: Linear model, Stationarity, Autocorrelation, Partial Auto correlation, Multicollinearity, ARIMA, ARMA process.

Unit IV: Stationarity and Unit Roots Tests: Introduction, Unit Roots tests, Stationarity tests

Unit V: Introduction to E Views: E views Functions, Programming in E views

Unit VI: Introduction to R studios: Programming in R for time series forecasting, Business Cases

Suggested Readings:

1. Damodar, N. Gujarati. *Basic Econometrics*, McGraw-Hill Publication
2. Box, G. E. P., Jenkins, G. M., Reinsel, G. C., & Ljung, G. M. *Time Series Analysis: Forecasting and Control*. Wiley.
3. Mills, T. C. *The Econometrics of Financial Time Series*, Cambridge University Press.
4. Chatfield, C. *The Analysis of Time Series: An Introduction*, Chapman and Hall.
5. Chan, N. H. *Time Series: Applications to Finance*, John Wiley and Sons.

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 309D
Subject: Data Visualization for Managers
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objectives: After the successful completion of this course students will be able to use the tools and Process of Visualization of Data. The course will provide the concept of Common Visualization Idioms. Students will also learn the tools for Visualization of Spatial Data. The course will enable the students to gain the knowledge about the application of Tableau & R studio for Visualization Tools.

Course Contents

Unit I: The Visualization Design: Data Visualization with Tableau Specialization, Data visualization and D3.js, D3. Js Data Visualization Fundamentals.

Unit II: Common Visualization Idioms: Reusable Dynamic Components, Bar Chart, Vertical & Horizontal, Pie Chart and Coxcomb Plot, Line Chart, Area Chart.

Unit III: Analyse and Visualize Data: Motion Chart, Bump Chart, Donut Chart, Waterfall Chart, Pareto Chart, Introducing R programme in Tableau.

Unit IV: Visualization of Spatial Data:- Networks, and Trees, Making Maps, Visualizing Trees and Networks, Using Color and Size in Visualization

Unit V: Geo-coding & mapping in Tableau: Geocoding in Tableau, importing custom geocoding in Tableau, Using custom graphic units in map, Replacing Tableau's standard map

Unit VI: Data Reduction: Histograms, Aggregating Data with Group-By, Hexbin Mapping, Cross filtering, Case Studies.

Suggested Readings:

1. Marleen Meier and David Baldwin: *Mastering Tableau 2019.1: An expert guide to implementing advanced business intelligence and analytics with Tableau 2019*, Packt Publishing Limited.
2. Kieran Healy: *Data Visualization – A Practical Introduction*, Princeton University Press.
3. Scott Murray: *Interactive Data Visualization for the Web*, O'Reilly.
4. Lindy Ryan: *Visual Data Storytelling with Tableau*, Pearson Education.
5. Elijah Meeks: *D3.js in Action*, Manning Publications.
6. Jacques Bertin: *Semiology of Graphics*, ESRI Press.
7. Hadley Wickham: *ggplot2 Elegant Graphics for Data Analysis*, Springer.

Specialization: Retail Management

VIDYASAGAR UNIVERSITY

MBA: THIRD SEMESTER

Paper Code: MBA- 310A

Subject: Retail Management: Theory and Practices

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: Objective of the course is to give a basic perspective of retail management and its theories and practices. This will form foundation to study different functional areas of retail management and to provide the students with the conceptual framework and the theories underlying retail management.

Course Contents

Unit-I: Definition, Scope, Benefits of Retailing, Evolution of Retailing: Theories; Changing Scenario of Indian Retail Industry, Trends in Retailing in India (Growth, Key Drivers), Functions of Retailing.

Unit-II: Retail Institution, Classification and Formats, Concept of Organized and Unorganized Retail, Contribution of Organized Retail, Effects of Organized Retail, Virtual Retailing- An Overview.

Unit-III: Retail Customer and CRM: Population Analysis, Demographic Analysis, Geographic Analysis, Consumer Buying Analysis, Process of Customer Engagement, Personal Selling, Role of IT in Driving CRM, E-Tailing, Retail Information System.

Unit-IV: Retail Strategy and Store Location: Situation Analysis, Identifying Strategic Options, Setting Objectives, Allocation of Resources, Develop and Implement the Strategy, Monitor, Review and Control, Strategic Focus for Competitive Advantage. Importance of Location Decision, Evaluation and Selection of Location.

Unit-V: Category Management: Organizing the Buying Process by Categories, Assortment Planning Process-Variety, Assortment & Product Availability.

Unit-VI: HR Policies and Franchising in Retail: Introduction of Franchising, Franchise Operation, Factors of Growth, Manpower Planning, Development of Retail Personnel, Recognition, Reward System.

Unit-VII: Pricing in Retailing: Pricing Strategies: EDLP, High/Low Pricing, Pricing Bundling/Multiple Unit Pricing, Mark Downs and Mark Up, Establishing Gross Margins, Leader Pricing, Price Lining, Odd Pricing, Psychological Pricing, Premium Pricing, Penetration Pricing.

Suggested Readings:

1. Pradhan, Swapna, *Retail Management*, Tata McGraw-Hill Education

2. Bajaj, Chetan; Tuli, Rajnish and Srivastava, Nidhi, *Retail Management*, Oxford University Press
3. Bhalla, Swati and Anurag S., *Visual Merchandising*, McGraw Hill Education
4. Berman and Evans, *Retail Management-A Strategic Approach*, Pearson
5. Levy, Michael; Weitz, Barton A. and Pandit, Ajay, *Retailing Management*, Tata McGraw Hill, New Delhi
6. Swapnil Saurav, Ravi Potti, *The A to Z of Retail Management*, Eka Publishers
7. Seshanna Sudarshan, Prasad Raghu, *Retail Management*, McGraw Hill Education

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 310B
Subject: Retail Merchandising Management
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: Objective of the course is to give a basic perspective of retail merchandising management. This will form foundation to study various functional areas of retail merchandising management and to provide the students with the conceptual framework and the theories underlying retail merchandising management.

Course Contents

Unit-I: Merchandising an Overview: Definition, Scope, Benefits of Merchandising, Merchandising Management, Rights Challenges, Factors Affecting Merchandising, Environment affecting Merchandising, opportunities for Merchandising.

Unit-II: Merchandise Categories: Fad/Fashion/Staple/ Seasonal, Difference Among the Three Types, Concept of Fashion Retailing, Challenge of Fashion Retailing, Interpreting Consumer Demand, Fashion Purchase Selection Criteria, Fashion Retailing Business Format, Major Divisions/Departments in Fashion Retail Organization.

Unit-III: Concept of Merchandiser and Buyer: Function of Merchandiser Manager and Buyer, Hierarchy of Merchandiser and Buyer, Roles and Responsibilities.

Unit-IV: Merchandising Planning: Developing Sales Forecasting for Merchandising, Color Forecasting, Fashion Scan, Merchandising Hierarchy; Determination Merchandising Requirement, Merchandising Budget Plan (Planned Retail to the Calculation of Gross Margin, B.O.M .and E.O.M., Measuring Inventory Level), Preparation of 6 Months Merchandising Plan: Consistency, Depth, Breadth; Merchandising Control/ Regulation of the Plan (Open to Buy).

Unit-V: Assortment Planning: Range Planning, Space Planning, Space Transaction, GBB Assortment and Margin Mix, Aesthetic Minimum, Store Grading.

Unit-VI: Buying Merchandise, Source Selection and Evaluation, Receiving and Stocking Merchandise, Strategic Vendor Relationship Management, Resident Buying Office.

Unit -VII: Merchandising Performance Analysis: Planogram, Visual Merchandising.

Suggested Readings:

1. Pradhan, Swapna, *Retail Management*, Tata McGraw-Hill Education
2. Bajaj, Chetan; Tuli, Rajnish and Srivastava, Nidhi, *Retail Management*, Oxford University Press
3. Bhalla, Swati and Anurag S., *Visual Merchandising*, McGraw Hill Education
4. Berman and Evans, *Retail Management-A Strategic Approach*, Pearson
5. Levy, Michael; Weitz, Barton A. and Pandit, Ajay, *Retailing Management*, Tata McGraw Hill, New Delhi
6. Swapnil Saurav, Ravi Potti, *The A to Z of Retail Management*, Eka Publishers
7. Seshanna Sudarshan, Prasad Raghu, *Retail Management*, McGraw Hill Education

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 310C
Subject: Retail Sales Technique and Promotions
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: Objective of the course is to give a basic perspective of retail sales technique and promotions. This will form foundation to study various functional areas of retail sales technique and promotions and to provide the students with the conceptual framework and the theories underlying retail sales technique and promotions.

Course Contents:

Unit-I: Advertising Communications and Promotions Effective Advertising: Understanding When, who, how and Why Advertising Works- Marketing Objectives and Positioning- Target Audience Selection and Action Objectives- Communication Objectives- DAGMAR

Unit-II: The Creative Strategy and Tactics- Media Strategy: The Reach Pattern and- Effective Frequency- The Creative Strategy and Tactics- Media Strategy: The Reach Pattern and- Effective Frequency- Campaign Tracking and Evaluation-Setting the Campaign Budget-Sales Promotions.

Unit-III: Promotion Impact- on the Marketing Mix-On the Customer Promotions and Integrated Marketing-Creating Customer Relations- Characteristics of an Integrated Programme-Strategic Considerations- Overcoming barriers in Integrated Marketing.

Unit-IV: Tactical Analysis –Strategic analysis to Promotion tactics- Objective Setting- Perspective on Strategy –Promotional tactical tool set –When and how to apply the right tactics -Built-Traffic-Reachnewcustomers-Tradeuser-IntroducenewProducts-Gain Product Display, Placement & Distribution-Stimulate repeat Sales-Generate Brand loyalty.

Unit-V: Sales promotion technique- Off the Self Offers- Joint Promotions- Price Promotions- PremiumPromotions-PrizePromotions-HowPromotionAffectsSales-Switching, Acceleration and Deceleration- How Promotion Affects Sales, Repeat Purchasing, Consumption-Trade Dealing.

Unit-VI: Retailer Promotions-Consumer Promotions (Coupons, Rebates, and Loyalty Programs)- Consumer Promotions (Loyalty Programs, Online, and Special Event Promotions)-Calculating Promotion Profitability, Retailer Promotions, Coupons, Rebates-Measuring Promotion Effectiveness- Sales Promotion Strategy Procter and Gamble's Value Pricing Strategy- Sales Promotion Strategy.

Unit-VII: Nature and Importance of Retail Sales Techniques –Application of AIDA model in Personal Selling- 7 steps of Personal Selling- B2C Marketing Process – Managing Sales Force in Retail Sales- Recent trends in Selling.

Suggested Readings:

1. Robert C. Blattberg & Scott A. Neslin, *Sales Promotion: Concepts, Methods, and Strategies*,

Prentice-Hall

2. Julian Cummins & Ruddy Mullin, *Sales Promotions How to create, Implement and Integrate Campaigns that really work*, Kogan Page
3. Kazmi & Sathish K. Batra, *Advertising & Sales Promotions*- Excel Books
4. George Belch & Michael A Belch, *Advertising & Sales Promotions: An Integrated Marketing Communications Perspective*, Tata McGraw Hill
5. Richard R. Still, Edward W. Cundiff, Norman A.P Govani, *Sales Management: Decision, Strategies, and Cases*, Pearson Education, New Delhi.

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 310D
Subject: Store Management
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective:

Objective of the course is to give a basic perspective of Retail Store Management. This will form foundation to study various functional areas of Retail Store Management and to provide the students with the conceptual framework and the theories underlying Retail Store Management.

Course Contents

Unit-I: An Overview of Retail Operations: Functions of a Retailer, Services of a Retailer, Stores Organization, Organization Structures, Forms of Retail Store Organization, Franchise Stores, Selection of Right Location, Considerations in Layout Selection, Types of Retail Location.

Unit-II: Different Layout & Designs, Store Layouts, Types of Store Layouts, Store Design, Design in Non-Store Retailing, Principles of Store Design, Exterior Store Design and Interior Store Design, Role of Operations in Opening a Store, Store Operation Structure & Users, Operations Functions, Pre Store Opening Tasks.

Unit-III: Store Opening and Closing Process: Essentials of Store Opening, Essentials of Store Closing, Material Identification System, Receiving and Inspection, Storage System, Preservation of Materials in the Storage, Preservation Strategies and Tactics.

Unit-IV: Relevance of Stock Management and Store Audit: Important Terminologies used in Retail

Stock Management, Stock Check Varsity & Variance, Stock Inventory and minimum stock levels, Taking Care of Quality Inside a Store, Stock Control Systems – Keeping Track using Computer Software, Using RFID for Inventory Control, Stock Security and Quality Management, Quality Control of Stocks, Concept of Store Audit, Store Appearance, Presentation, Stock, Cleanliness, Store Audits: Benefits.

Unit-V: Loss Prevention and Shrinkage Control: Importance of Security Measures, Safety and Security Factor Considerations in the Retail Store Design, Fire Safety and Fire Hazards, Ergonomics, Air Quality, Visual Inspection of Premises, Crime, Lighting, Employee Training, Shrinkage, Forms of Shrinkage, Methods & Ways to Reduce Shrinkage.

Unit-VI: The Customer Service Desk: Objectives: Customer Service Job Description, Exchange of Defective Products, Loyalty Programs, 'TILL' Management- Payment and Promotion.

Unit VII: Different Fixtures Available for a Retail Store: Objectives, The Purpose of Planning Fixtures, The Purpose of Planning Fixtures, Fixture Planning, Types of Fixtures.

Unit VIII: Contemporary Issues in Store Management: Objectives, Legal and Ethical Issues in Retailing, Copyright, Trademarks, Careers in Retailing, Employment Potential through Retailing, Building Career in Retailing, Training and Development in Retail, Diversification, Online Retailing.

Suggested Readings

1. Berman and Evans, *Retail Management A Strategic Approach*, Pearson.
2. Levy, Michael, Weitz, Barton A and Pandit, Ajay, *Retailing Management*, Tata McGraw Hill, New Delhi.
3. Gopal, R. Manjrekar, Pradip, *Retail Management*, Excel Books, New Delhi.
4. Iyer, B. Sriram, *Retail Store Operations*, Tata McGraw Hill, New Delhi.
5. Menon, K. S., *Stores Management*, Macmillan India.
6. Pradhan, Swapna, *Retail Management*, Tata McGraw-Hill Education.

Specialization: Digital Marketing

VIDYASAGAR UNIVERSITY

MBA: THIRD SEMESTER

Paper Code: MBA- 311A

Subject: Fundamentals of Digital Marketing

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: This course provides the fundamentals of digital marketing. This involves marketing of products or services using digital technologies. This technology primarily uses the Internet, but also involves use of mobile phones. The course helps the learner understand the differentiation of promotion of products or brands via one or more forms of electronic media from traditional marketing. Digital Marketing uses multiple channels and techniques on digital platforms that enable an organization to analyze marketing campaigns in a real time manner.

Course Contents

Unit-I: Introduction: Meaning & process of Marketing followed by Digital Marketing; meaning of visibility; visitors' engagement- meaning, importance & examples; bringing targeted traffic- inbound and outbound marketing; converting traffic into leads, types of conversion & conversion process tools; role of Digital Marketing in increasing sales; understanding competitive analysis with the help of case studies.

Unit-II: Digital marketing vs. Traditional marketing: Difference between Traditional marketing and Digital marketing as well as benefits and challenges; Moment of Truth; Tools for effective Digital Marketing.

Unit-III: Inbound Marketing: Inbound Marketing fundamentals; differences between online and offline consumer behavior; the consumer journey online; consumer decision making online; Buyer Personas; the buyer's journey; Content Strategy.

Unit-IV: Digital Marketing Plan: Formulating a media plan; Choosing the appropriate media; the strengths and weaknesses of different channels; integrating channels; Digital Advertising Market.

Unit-V: Digital Marketing Processes & Tools: Search Engine Optimization; Search Engine Marketing; Social Media Marketing; Email Marketing; Display Marketing; Video Marketing; Mobile Marketing; Digital Marketing Analytics; Digital Marketing Tools; Blogs- Meaning, Importance, Issues and Challenges. Case studies on digital marketing. (Case studies)

Unit-VI: Website Planning & Design: Understanding domain names & extensions; planning and conceptualizing a website; registering a domain name and hosting; adding domain name to web server; adding webpages & content; adding plugins; identifying objective of website & building websites using content management system (CMS).

Suggested Readings:

1. Dodson, I., *The Art of Digital Marketing: The Definitive Guide to Creating Strategic, Targeted and Measurable Online Campaigns*, New Jersey, Wiley
2. Neher, K., Byers, M., et al., *Digital Marketing That Actually Works the Ultimate Guide: Discover Everything You Need to Build and Implement a Digital Marketing Strategy That Gets Results*, Cincinnati, Ohio, Boot Camp Digital
3. Kotler, P., Kartajaya, H., Setiawan, I., *Marketing 4.0: Moving from Traditional to Digital*, Wiley
4. Kingsnorth, S., *Digital Marketing Strategy: An Integrated Approach to Online Marketing 2nd Edition*, Kogan Page
5. Chaffey, D., Ellis-Chadwick, F., *Digital Marketing (7th Edition)*, Pearson
6. Bhatia, P., *Fundamentals of Digital Marketing (2nd Edition)*, Pearson
7. Swaminathan, T. N., Kumar, K., *Digital Marketing: From Fundamentals to Future*, Cengage Learning
8. Gupta, S., *Digital Marketing*, McGraw Hill

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 311B
Subject: SEO and SEM Strategies
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: Search Engine Marketing (SEM) is a cost-effective way of generating highly relevant leads for business. The best thing about SEM is that it offers contextual targeting, which helps one to target audience based on their interests, location, demographics, time and so on. This course also provides inputs on how SEM campaign is a CPC (Cost-per-click) advertisement model unlike SEO, it starts immediately and advertiser starts getting results immediately on start of the campaign. Therefore, a solid understanding of search engine marketing is vital to a successful digital marketing campaign. This course provides inputs on promoting websites on Google, the search landscape and how to spot trends in search, understanding of PPC campaigns, performance tracking, deciphering user psychology and building alluring landing pages.

Course Contents

Unit-I: Search Engine Optimization: Introduction to SEO concept and role in digital marketing; Understanding Search Engine Optimization: Features of SEO, Significance of SEO; models used in Digital Marketing; the five-stage model, Inverted Pyramid in SEOs, Content Drilldown, E3model, Understanding Web and Mobile Marketing perspective.

Unit-II: Keyword Research and Usage: Importance of keywords; types of keywords; keyword selection; keyword planner tools; competitor keyword research; effective keywords use for SEO; Google search tips and hacks.

Unit-III: On Page, Off Page & Technical SEO: On-page or on-site SEO; benefits of on-page SEO; on page SEO methodologies; off-page SEO; Page Quality Rating; benefits of off-page SEO; on-page SEO methodologies; Link building techniques; Technical SEO tools like Google Page Speed Insight, Screaming Frog; Mobile SEO; SEO Audit.

Unit-IV: Introduction to SEM: Search Engine Marketing (SEM), Understanding Google Search, Comparison between SEO and SEM, Terminologies associated to SEM, Search Engine Results Page (SERP), Organic Reach, Google Search Network (GSN), Google Display Network (GDN). Understanding Web and Mobile Marketing perspective.

Unit-V: Google Ads: Introduction to Google Ad; Pay-per-click (PPC) Advertising; types of campaigns; setting up Ad campaigns; ad formats and extensions; Google Ads tools; analyzing Google Ad campaigns; SEM Optimization Strategies; Google Ads Account Audit.

Suggested Readings:

1. Dodson, I., *The Art of Digital Marketing: The Definitive Guide to Creating Strategic, Targeted, and Measurable Online Campaigns*, New Jersey, Wiley
2. Granitza, L., Tobias, E., *The SEO Book: Search engine optimization 2020*, Regensberg, Edison Verlag
3. McDonald, J., *SEO Fitness Workbook: The Seven Steps to Search Engine Optimization*, Independently Published
4. Moran, M., Hunt, B., *Search Engine Marketing, Inc.: Driving Search Traffic to Your Company's Website* IBM Press
5. Marshall, P., Rhodes, M., Todd, B., *Ultimate Guide to Google AdWords: How to Access 100 million People in 10 Minutes*, Entrepreneur Press
6. Kennedy, A.F., *Global Search Engine Marketing*, Pearson
7. Ramos, A., Cota, S., *Search Engine Marketing*, McGraw Hill
8. Das, S., *Search Engine Optimization and Marketing: A Recipe for Success in Digital Marketing*, Chapman & Hall/ CRC

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 311C
Subject: Content Marketing Strategies
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: This course provides the key concept to the students about the content marketers and different strategies relating to content marketing. Students will learn how to use photos, words, audio, and video to create an effective promotional campaign for their product or services in online. This course will walk students through the what, why and how of content marketing and how to begin to define a marketing strategy.

Course Contents

Unit-I: Introduction to Content Marketing: Definition, history, evolution, objectives, importance, role of content marketing in businesses; challenges and opportunities.

Unit-II: Tools of Content Marketing: Blogs, branch guide/folder, social media, Case study, Webinars, Video publications, articles, Newsletters, Mobile Apps, Info-graphic, e-book, Whitepapers, podcasts, audio publications, websites and E-mails. Merits and challenges in using these tools. Content marketing and online marketing, influencer marketing.

Unit-III: Content Marketing Strategy: Definition, objectives, strategic plan; analysis of business and understanding customers. Content marketing mix, timelines, budget and optimizing and content; role of SEO in content marketing.

Unit-IV: Content Management: Definition, Phases, CMS, distribution of content; strategies in content distribution - guest blogging, repurposing and republishing. Importance of content Management. Metrics to monitor content.

Unit-V: Measuring & Analyzing Content: The importance of analysis; identifying successes and failures; tracking decisions; tracking, measuring and managing the data; concept of ROI; tools for success in content analysis.

Unit-VI: Cases in content marketing: Content Strategies used in sectors like Automobile, Services, FMCG, Pharmaceuticals, Airline, Future Trends in Content Marketing.

Suggested Readings:

1. McCoy, J., *Practical Content Strategy & Marketing: The Content Strategy & Marketing Course Guidebook*, CreateSpace Independent Publishing Platform
2. Crestodina, A., *Content Chemistry: The Illustrated Handbook for Content Marketing*, (5th Edition), Orbit Media Studios
3. Hanly, L., *Content That Converts: How to Build a Profitable and Predictable B2B Content Marketing Strategy*, CreateSpace Independent Publishing Platform
4. 4. Schaefer, M.W., *The Content Code: Six essential strategies to ignite your content, your marketing, and your business*, Independently Published
5. Sharma, P., *The One-Page Content Marketing Blueprint: Step by Step Guide to Launch a Winning Content Marketing Strategy in 90 Days or Less and Double Your Inbound Traffic, Leads, and Sales*, Axeman Publishing
6. Ramos, A., *The Big Book of Content Marketing*, andreas.com
7. Chapman, C.C., Handley, A., *Content Rules: How to Create Killer Blogs, Podcasts, Videos, E-books, Webinars (and More) That Engage Customers and Ignite Your Business: 13 (New Rules Social Media Series)*, Wiley
8. Schaefer, M.W., *The Content Code: Six essential strategies to ignite your content, your marketing, and your business*

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 311D
Subject: Cyber Security in Digital Marketing
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: Objective of the course is to give a basic perspective of cyber security in digital marketing and its fundamental aspects. This will form foundation to study different functional areas of cyber security and to provide the students with the conceptual framework and the theories underlying cyber security in digital marketing.

Course Contents

Unit-I: Introduction to cyberspace: Definition and meaning of cyberspace, usage in several context – informational in the form of blogs or transactional in the form of websites (most likely E-commerce platforms) or social media like Facebook, Instagram, LinkedIn, Twitter, etc.

Unit-II: Technological infrastructure for digital presence: Evolution of internet; intranet vs extranet; basic network architecture and the layered model, internet architecture, network hardware and software considerations; key terminologies- packet switching, routing algorithm, protocol like TCP/ IP, HTTP, SMTP, FTP, etc. Meaning and concept of E-commerce; Different types of E-commerce business models; registration of domain name; understanding DNS, URLs, ISP, HTML, etc.; Internet payment methods- 4C payment methods, ACID and ICES test, payment gateway, SET protocol for card payment, EFT and ACH.

Unit-III: Security environment in cyberspace: Dimensions of security; Importance and challenges in Cyber Security; Cyber threats; Cyber warfare; CIA Triad; Cyber Terrorism; Cyber Security of Critical Infrastructure; Cyber security; Organizational Implications; Types of Hackers; Hackers and Crackers; Cyber-Attacks and Vulnerabilities; Malware threats; Sniffing; Gaining Access; Escalating Privileges; Executing Applications; Hiding Files; Covering; Tracks; Worms; Trojans; Viruses; Backdoors

Unit-IV: Basic cryptography and Cyber Forensics: public and private key encryption, authentication and trust using digital signature and digital certificates, internet security using VPN, firewalls, SSL; Introduction to Cyber Forensics; Computer Equipment and associated storage media; Role of forensics Investigator; Forensics Investigation Process - Collecting Network based Evidence; Writing Computer Forensics Reports; Auditing; Plan an audit against a set of audit criteria; Information Security Management System.

Unit-V: Cyber Ethics and Laws: Introduction to Cyber laws; E-Commerce and E-Governance; Certifying Authority and Controller; Offences under IT Act; Computer Offences and its penalty under IT Act 2000; Intellectual Property Rights in Cyberspace.

Suggested Readings:

1. Donaldson, S.E., *Enterprise Cybersecurity Study Guide: How to Build a Successful Cyber defense Program Against Advanced Threats*, Apress
2. Godbole, N., Belapure, S., *Cyber Security*, Wiley
3. Jain, N., Menon, R., *Cyber Security and Cyber Laws*, Wiley
4. Wittkop, J., *The Cybersecurity Playbook for Modern Enterprises: An end-to-end guide to preventing data breaches and cyber-attacks*, Packt Publishing Limited
5. Grimes, R.A., Ross, J.T., *Hacking the Hacker: Learn from the Experts Who Take Down Hackers*
6. Harper, A., Regalado, D., Linn, R., Sims, S., Spasojevic, B., Martinez, L., Baucom, M., Harris, S., Eagle, C., *Gray Hat Hacking: The Ethical Hacker's Handbook (5th Edition)*, McGraw Hill
7. Rittinghouse, J.W., *Cyber Security Operations Handbook*, Elsevier India
8. Laudon, K.C., Traver, C.G., *E-Commerce 2017 (13th Edition)*, Pearson

Specialization: Logistics and Supply Chain Management

VIDYASAGAR UNIVERSITY

MBA: THIRD SEMESTER

Paper Code: MBA –312A

Subject: Fundamentals of Materials Management

Full Marks: 100

No. of Classes: 40 Hours 4 Credits

Course Objective: On successful completion of the Course, the student would be acquainted to the basic nuances of Materials Management encompassing core functions of Purchasing and Stores management.

Course Contents

Unit-I: Introduction to Materials Management: Introduction, Scope of Materials Management, Importance of Materials Management, Scope of Profitability through MM,

Unit-II: Objectives of Materials Management: Primary and Secondary Objectives of MM, Integrated Materials Management: Relation with Other Functions, Materials Management to Supply Chain Management-The Transition.

Unit-III: Introduction to Purchasing Management: Overview, Purchasing Organizations, Purchasing Cycle and Contracts / Purchase Orders, Lead Time.

Unit-IV: Vendor/Supplier Management: Vendor Analysis & Management, Negotiations, Scope of Cost Reduction in Purchasing, Make or Buy, Purchasing Productivity.

Unit-V: Introduction to Stores Management: Materials Identification: Classifying Materials, Codification of Materials, Standardization, Stores Management: Different Types of Stores

Unit-VI: Stores Procedures: Stores Issues and Receipts: Procedures, Forms, Policies in Stores Transactions: Stores Accounting,

Unit-VII: Stores Organization: Stores Organization, General Duties and Responsibilities of Stores

Unit-VIII: Preservation and Storage Techniques: Materials Safety and Security, Store Layout and Design, Preservation of Materials in Storage; Stores Productivity

Suggested Readings:

1. Datta, A. K, *Materials Management: Procedures, Text & Cases*, PHI.
2. Menon, K. S., *Purchasing and Inventory Management*, Shroff.
3. Menon, K. S., *Stores Management*, Laxmi Publications.
4. Bhattacharya, S. C. *Modern Concepts of Materials Management*, Kolkata Jharna Bhattacharya.
5. Chitale. (2014). *Materials Management a Supply Chain Perspective: Text and Cases*. Prentice Hall India Learning Private Limited.
6. Arnold, J. R. *Introduction to materials management*. Pearson Education India.

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA - 312B
Subject: Transport Management
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: On successful completion of the course, students would be able to appreciate the principles and practices of Transportation and its role in Distribution and Business at large. Students would get familiar with areas pertaining to carrier services, freight classifications, tariffs etc. enabling him or her to address logistical problems with confidence

Course Contents:

Unit-I: Introduction to Transportation: Role and Strategic Objectives of Transportation in SCM

Unit-II: Transportation Costs: Elements of Transportation Cost

Unit-III: Types of Modes: Characteristics and Salient Features of Modes of Transportation

Unit-IV: International Trade: Intermodal Transportation in International Operations

Unit-V: Mode and Carrier: Factors Influencing Mode and Carrier Selection Decision

Unit-VI: Other Factors Impacting Transportation Decision: Rate and Pricing Factors in Transportation Decision

Unit-VII: India's Transportation Network: Advantages and Bottlenecks in India's Transportation Network

Unit-VIII: 3PL and 4PL: Emergence, Scope and Basics of 3PL and 4 PL

Suggested Readings:

1. Agarwal, D. K., *Textbook of Logistics and Supply Chain Management*, Macmillan
2. Bloomberg, LeMay, Hanna; *Logistics*, Prentice Hall of India
3. Bowersox et al., *Supply Chain Logistics of Management*, TATA McGraw Hill,
4. Coyle, Novack, Gibson, *Transportation A Global Supply Chain Perspective*, South-Western College Publishing
5. Sarder, MD, *Logistics Transportation Systems*, Elseiver

VIDYASAGAR UNIVERSITY

MBA: THIRD SEMESTER

Paper Code: MBA - 312C

Subject: Inventory and Stores Management

Full Marks: 100

No. of Classes: 40 Hours

4 Credits

Course Objective: On completion, student would be able to understand the importance of inventory and its management. Further, students would be equipped with appropriate knowledge and skills of basic stores operations encompassing storage and preservation techniques of key materials.

Course Contents

Unit-I: Introduction to Inventory and Inventory Management: Importance, Scope of Inventory Control, Types of Inventories, Work in Process Inventories, Finished Goods Inventories, Spare Parts Inventories, Costs Associated with Inventory, Inventory Control,

Unit-II: Inventory Control Techniques: Selective Inventory Control, FSN, VED, ABC, Economic Order Quantity, Safety Stocks, Inventory Management Systems, Forecasting Techniques, Material Requirement Planning.

Unit-III: Introduction to Stores Management: Materials Identification: Classifying Materials, Codification of Materials, Standardization: Simplification and Variety Reduction of Materials, Stores Management: Different Types of Stores,

Unit-IV: Stores Procedures: Stores Issues and Receipts: Procedures, Forms, Policies in Stores Transactions: Stores Accounting,

Unit-V: Preservation and Storage Techniques: Materials Safety and Security, Store Layout and Design, Preservation of Materials in Storage;

Unit-VI: Introduction to Material Handling: Introduction to Material Handling Principles and Practices, Material Handling Equipment,

Unit-VII: Stores Organization: Stores Organization, General Duties and Responsibilities of Stores Management, Stores Productivity

Unit-VIII: Surplus, Obsolete and Scrap Management: Surplus, Obsolescence and Scrap Management; Basics of Protective Packaging;

Suggested Readings:

1. Datta, A. K, *Materials Management: Procedures, Text & Cases*, PHI
2. Menon, K. S., *Purchasing and Inventory Management*, Shroff,
3. Menon, K. S., *Stores Management*, Laxmi Publications,
4. Bhattacharya, SC, *Modern Concepts of Materials Management*, Jharna Bhattacharya
5. Waters, Donald; *Inventory Control and Management*, 2nd Edition, Wiley India, 2008

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA - 312D
Subject: Logistics and Supply Chain Management
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: By the end of the course, students would be introduced to the basic dynamics of supply chain management and its role in modern business. Students would further gain insights into core and advanced SCM concepts including its supplier and customer interfaces, SCM Audit, JIT and Reverse Logistics.

Course Content

Unit-I: Backdrop: 1991: Globalization and Its impact on Supply Chains and Its Management. Covid19: Impact of Covid 19 on Supply Chain and Its Management.

Unit-II: Supply Chains: Concept, Framework and Modelling, Relationships, Drivers, Implementation and Changing Paradigm, Supply Chain Flows: Material, Information and Cash. Supply Chains in the new normal.

Unit-III: Challenges and Hazards in Managing Supply Chains: Bullwhip Effect, Shortage Gaming, Dealer and Data Management.

Unit-IV: Creating Value through Supplier Relationships: CRM-SCM Interface.

Unit-V: Contracts and E-Contracts Management; JIT& TQM-SCM Interface: Contracts and E Contracts: Importance and Trends. JIT & TQM: Concept, Scope and Challenges -Indian Context. Scope of JIT in post Covid 19 scenario /new normal.

Unit-VI: E-Procurement and E-Commerce Applications: Scope, Applications and Challenges.

Unit-VII: Bar Coding, RFID and other Tracking Mechanisms: Applications and Challenges.

Unit-VIII: Reverse Logistics and Supply Chain/Logistics Audit: Reverse Logistics: Scope, Applications, CSR and Challenges. Supply Chain/Logistics Audit: Scope, Applications

Suggested Readings:

1. Agarwal, D. K., *Textbook of Logistics and Supply Chain Management*, Laxmi Publications
2. Bloomberg, LeMay, Hanna; *Logistics*, Prentice Hall of India
3. Bowersox et al., *Supply Chain Logistics of Management*, TATA McGraw Hill

4. Raghuram G & Rangaraj N, *Logistics and Supply Chain Management Cases and Concepts*, Laxmi Publications
5. Divakaran, Prakash Achari, *Supply Chain Management*, Horizon

Specialization: Systems

VIDYASAGAR UNIVERSITY

MBA: THIRD SEMESTER

Paper Code: MBA- 313A

Subject: Cloud Computing for Business

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: This course gives students an insight into the basics of cloud computing along with virtualization, cloud computing is one of the fastest growing domains from a while now. It will provide the students basic understanding about cloud and virtualization along with it how one can migrate over it.

Course Contents:

Unit-I: Cloud Computing Overview: Origins of Cloud computing – Cloud components - Essential characteristics – On-demand self-service, Broad network access, Location independent resource pooling, Rapid elasticity, measured service, Comparing cloud providers with traditional IT service providers, Roots of cloud computing.

Unit-II: Cloud Insights: Architectural influences – High-performance computing, Utility and Enterprise grid computing, Cloud scenarios – Benefits: Scalability, simplicity, vendors, security, Limitations – Sensitive information - Application development- security level of third party - security benefits, Regularity issues: Government policies.

Unit-III: Cloud Architecture- Layers and Models: Layers in cloud architecture, Software as a Service (SaaS), features of SaaS and benefits, Platform as a Service (PaaS), features of PaaS and benefits, Infrastructure as a Service (IaaS), features of IaaS and benefits, Service providers, challenges and risks in cloud adoption. Cloud deployment model: Public clouds – Private clouds – Community clouds - Hybrid clouds -Advantages of Cloud computing.

Unit-IV: Cloud Simulators- Cloud Sim and Green Cloud: Introduction to Simulator, understanding Cloud Sim simulator, Cloud Sim Architecture (User code, Cloud Sim, Grid Sim, Sim Java) Understanding Working platform for Cloud Sim, Introduction to Green Cloud

Unit-V: Introduction to Virtualization: Virtualization and cloud computing - Need of virtualization – cost, administration, fast deployment, reduce infrastructure cost – limitations - hardware virtualization, Software virtualization.

Unit-VI: Introduction to VMWare Simulator: Basics of VMWare, advantages of VMware virtualization, using VMware workstation, creating virtual machines-understanding virtual machines, create a new virtual machine on local host, cloning virtual machines, virtualize a physical machine, starting and stopping a virtual machine.

Unit-VII: Migrating into a Cloud

Introduction, Challenges while migrating to Cloud, Broad approaches to migrating into the cloud- why migrate -deciding on cloud migration, the Seven-step model of migration into a cloud, Migration Risks and Mitigation, Enterprise cloud computing paradigm, relevant Deployment Models for Enterprise Cloud Computing.

Suggested Readings:

1. Anthony T.Velte , Toby J. Velte Robert Elsenpeter, *Cloud computing a practical approach*, TATA McGraw- Hill , New Delhi.
2. Michael Miller; *Cloud Computing: Web-Based Applications That Change the Way You Work and Collaborate Online*. Pearson
3. Judith Hurwitz, Robin Bloor, Marcia Kaufman, Fern Halper; *Cloud computing for dummies* Wiley Publishing
4. Edited by Rajkumar Buyya, James Broberg, Andrzej Goscinski, *Cloud Computing (Principles and Paradigms)*, John Wiley & Sons.
5. Joe Weinman.; *Cloud on omics: The Business Value of Cloud Computing*, Wiley& Sons.

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 313B
Subject: Enterprise Resource Planning
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: To provide a contemporary and forward-looking on the theory and practice of Enterprise Resource Planning Technology. This course will introduce you to enterprise systems and show how organizations use enterprise systems to run their operations more efficiently and effectively. The course will examine typical Enterprise Systems modules.

Unit-I: Enterprise Resources Planning: Evolution of ERP-MRP and MRP II – problems of system islands, need for system integration and interface, early ERP Packages, ERP products and Markets. Security and privacy issues, technologies for E- Business,

Unit-II: Opportunities and problems in ERP selection and implementation: ERP implementation, identifying ERP benefits team formation, Consultant intervention, Selection ERP, Process of ERP implementation, managing changes in IT organization Preparing IT infrastructure, Measuring benefits of ERP.

Unit-III: Integrating with other systems: Post ERP, Modules in ERP, Business Modules of ERP Package, Reengineering Concepts. The emergence of reengineering concept- concept of business process, rethinking of processes, identification of re-engineering need, preparing for re-engineering.

Unit-IV: Implementing change, change management, BPR & ERP, Supply Chain Management: The concept of value chain differentiation between ERP and SCM, SCM for customer focus, need and specificity of SCM-SCM scenario in India, products and markets issues in selection and implementation of SCM solutions, CRM solution.

Unit-V: ERP Implementation Lifecycle: Issues in Implementing ERP Packages; Pre-evaluation Screening; Package Evaluation; Project Planning Phase; Gap Analysis; Reengineering; Configuration; Implementation; Team Training; Testing; Going Live; End-User Training; Post Implementation (Maintenance Mode).

Unit-VI: Future Directions in ERP and Other Related Technologies of SCM: New Markets; New Channels; Faster Implementation Methodologies; E-Procurement; E-Logistics; Internet Auctions; E-markets; Electronic Business Process Optimization; Business Objects in SCM.

Unit-VII: E-Business: Introduction to 1.Net technologies, Evolution of E-Commerce, EDI and E Business, Business opportunities, Basic and advanced business models on internet, internet banking and related technologies.

Suggested Readings:

1. Garg & Venkitakrishna: *Enterprise Resource Planning- Concept & Practice*, PHI
2. Altekhar: *Enterprise wide Resource Planning theory & practice*, PHI
3. Nick Obolensky: *Practical Business Re-engineering*, Kogan Page
4. Simha R. Magal, Jeffrey Word: *Integrated Business Processes with ERP Systems*, O'Reilly
5. Ian Kimbel, Andreas Vogel: *My SAP ERP for Dummies*, Wiley
6. Donald Sheldon: *Class A ERP Implementation Integrating Lean and Six Sigma*, Ross Publishing

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 313C
Subject: Decision Science and Software Engineering

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: Decision Science and Software Engineering comprises the core principles consistent in software construction and maintenance: fundamental software processes and life-cycles, mathematical foundations of software engineering, requirements analysis, software engineering methodologies and standard notations, principles of software architecture and re-use, software quality frameworks and validation, software development, and maintenance environments and tools.

Course Contents

Unit-I: Introduction: Definitions, Characteristics of Software - Software Engineering vs other engineering disciplines – Software Myths – Software Life Cycle Models – Selection of Software Process models.

Unit-II: Requirement analysis: Prototyping – Specification – Analysis modeling.

Unit-III: Software design: Software design – Abstraction – Modularity – Software architecture – Effective modular design – Cohesion and Coupling – Architectural design and procedural design – Dataflow oriented design.

Unit-IV: User interface design: User Interface design – Human factors – Human computer interaction – Human – Computer interface design – Interface design – Interface standards. Programming languages and coding – Language classes – Code documentation – Code efficiency – Software configuration management.

Unit-V: Programming standards: Need for structured programming – Coding standards – Maintainability of programs.

Unit-VI: Coding: Structured Programming: Information hiding - documentation verification.

Unit-VII: Testing techniques: Software testing – Path testing – Control structures testing – Black Box testing – Unit, Integration, Validation and system testing – Software Maintenance - TQM principals- Quality control tools (Q7and M7) - Product Development Life cycle – Structured development methodology.

Unit-VIII: Project Cost & Time Management: Project Schedule - Activity Duration Estimation - Gantt Charts -Critical Path Method – PERT - Cost Control - Estimation Techniques.

Unit-IX: Trends in software engineering: Reverse Engineering and Re-engineering – wrappers – Case Study of CASE tools.

Suggested Readings:

1. Pressman, Roger S.: *Software Engineering – A Practitioner’s Approach*, McGraw Hill 8th Edition 2018
2. Sommerville, I.: *Software Engineering*, Pearson Education India, New Delhi 9th Edition 2016
3. Fleegeer, P.: *Software Engineering*, Pearson Education India, New Delhi 4th Edition 2011
4. Carlo Ghezzi, Mehdi Jazayari and Dino Mandrioli: *Fundamentals of Software Engineering*, Prentice Hall of India, New Delhi

5. Richard Helm, Erich Gamma Ralph Johnson, John Vlissides, and Grady Booch: Design Patterns: Elements of Reusable Object-Oriented Software, Pearson Education India, New Delhi

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 313D
Subject: Structured Systems Analysis and Designing
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: Focuses on application of information technologies (IT) to system life cycle methodology, systems analysis, systems design, and system implementation practices. Covers methodologies related to identification of information requirements, feasibility in the areas of economic and technical requirements, all related issues are included in course content.

Course Contents:

Unit-I: Basic Concepts: Business system concept – SDLC - Business process re-engineering concept – Problem Solving: Finding the problem – Evaluating the proposal – Economic feasibility.

Unit-II: System Requirement & Planning: DFDS - Data dictionaries - Process organization & interactions - Decision analysis - Standards (IEEE/ISO) - Data Modelling & analysis – Entity Relationship Analysis– Decision Tables – Relational Analysis: Relations – Functional dependencies – Relation keys –Normal form relations – Constructing relations from functional dependencies.

Unit-III: Design: File design – Input-Output Design - Module Specification - User Interface Design

Unit-IV: Object Modelling: Classes & Objects - Object structure & features - Concept of object-orient approach - Object representation methods - Object Status - State Diagram

Unit-V: System Control & Assurance of Quality: Design objectives reliability & maintenance – Software design & documentation tools - Top-down - Bottom-up & variants - Unit – Integration - System & Acceptance Testing - Audit trials - Case tools - System controls.

Unit-VI: Hardware & Software Specification: Selection of Software (OS, Languages, PSuggested Readings & Acceptance criteria) - Selection of Hardware (Memory process, peripherals, etc.).

Unit-VII: Planning: Schedule Development - Resource Planning - Cost Estimation - Quality Planning – HR Planning - Communication Planning - Risk Management Planning - Procurement Planning – Project Management Methodology - Software Project Management Plan (SPMP) - Changing Controls.

Unit-VIII: Design: Problem portioning – Abstraction - Top-down & Bottom-up strategies – Modularity - Coupling & Conension - Structure Chart - Transaction Analysis - Functional Approach vs. Object oriented Approach - Design Process – Design Concepts: Abstraction, Refinement, Modularity, Software architecture.

Suggested Readings:

1. Jalote, Pankaj: *An Integrated Approach to Software Engineering*, Narosa Publishing
2. Pressman, *Software Engineering*, McGraw Hill
3. Mall, Rajib: *Fundamentals of Software Engineering*, PHI
4. Igor Hawrysz Kiewy: *Introduction to System Analysis & Design*, PHI
5. Booch, Grody: *Object-Oriented Analysis & Design Methods* The Addison-Wesley; 3rd Edition 2012
6. Alex Xu: *System Design Interview*; Byte Code LLC
7. Joseph Valacich and Joey George: *Modern Systems Analysis and Design*, Pearson

Specialization: Media Management

Vidyasagar University

MBA: THIRD SEMESTER

Paper Code: MBA – 314A

Subject : Organization and Management of Media

Full Marks: 100 No. of classes: 40 Hours Credit : 4

Course Objective: The course objective is to provide students with an insight into the management practices and policies of media organizations and understand the patterns of ownership in media organizations. Also, to enable students to manage overall functioning and coordination activity in a media organization.

Course Contents:

Unit-I: Principles of Management and their Significance, Functions of Management, Planning and Coordination, Ownership Patterns of Mass Media in India; Private Ltd. & Public Ltd., Media as a Business and Social Institution; Global Media Scenario; Issues of Monopolies, Conglomerates, Vertical and Horizontal Integration.

Unit-II: Introduction to Print Media; Concept, Hierarchy and Functions,

Changing Role of Editorial Staff and other Media Persons, Editorial Response System and Reporting, Managing Advertising.

Unit-III: Circulation and Marketing of Newspaper, Factors affecting Newspaper Circulation, Managing News Agencies

Unit-IV: Introduction to Radio, Doordarshan, Satellite and Cable Television in India and private broadcasting system in India.

Unit-V: Cinema Industry; Functions of various Departments, Recruitment and Service conditions, Planning and execution of program.

Unit-VI: Introduction to New Media Platforms; Facebook, Twitter and Instagram,

Managing Social Media Accounts and Brand Building through social media Promotional Activities, Digital Rights Management, Content Regulation of Social Media Marketing Strategies

Unit-VII: Introduction to Advertising; Concept, Nature, Functioning and Scope, Advertisement Planning and execution;

Unit-VIII: Role of Studio Manager, Media Mix, Media Buying and Brand Placement, Different Account Handling and Campaign Management

Suggested Readings:

1. Barton, R.: *Handbook of Advertising Management*, US: McGraw Hill Pub.
2. Chiranjeev, A.: *Electronic Media Management*, Authors Press.
3. Dibankar, P., & Biswaroy B.K.: *Media Management in India*, Kanishka Publishing House.
4. Herman, E. S., & McChesney, R. W. *The global media: The New Missionaries of Corporate Capitalism*. Continuum International Publishing Group Ltd.
5. Swami.S.K.: *Media organisation and management*, Cyber Tech Publications.

Vidyasagar University

MBA: THIRD SEMESTER

Paper Code: MBA – 314B

Subject : Media Business Structure and Strategies

Full Marks: 100 No. of classes: 40 Hours Credit : 4

Course Objective: This course provides students with unique learning opportunities to gain insight into various management functions within the Media industry and to develop an understanding about the evolution, characteristics and Production techniques of different Media.

Course Contents:

Unit-I: Print Media: Evolution of Print Media in India, Indian freedom revolution and Indian Press,

Unit-II: Print Media and business, Print Media Production Process

Unit-III: Radio industries- Origin and development of Radio, Private and Public Radio in India, Community Radio, Radio Production Techniques, Radio Studio Management.

Unit-IV: Television Industries Origin of Private TV channel in India, Cable Television Network in India,

Unit-V: Public and Private News Channel System, TV Studio management

Unit-VI: Indian Traditional Media: Introduction to Indian Folk Media, Various Forms of Folk Media, Impact and Effect of Folk Media, Folk Media as Business Prospective.

Unit-VII: Film Productions and Business: Brief History of Indian Cinema, Parallel and Commercial Cinema in India, Documentaries, Feature and short Films,

Unit-VIII: Web Based Production, Web series, Challenges of Entertainment and Media Business.

Suggested Readings:

1. Kumar, Keval J, *Mass Communication in India*, Jaico Publication.
2. Begleiter, Marcie. *From Word To Image, Storyboarding and the Filmmaking Process*, Michael Wiese Productions.
3. Hodgson F. W. *Modern Newspapers practice*, Heinemann London.
4. Ninan, Shevanthi : *"Headlines From The Heartland: Reinventing The Hindi Public Sphere"* Sage Publication .

Vidyasagar University

MBA: THIRD SEMESTER

Paper Code: MBA – 314C

Subject: Media Business Planning

Full Marks: 100

No. of classes: 40 Hours

Credit: 4

Course objective: The course objective is to make the students aware about how Economics and Media Planning are related with each other, integrate the basic concepts of economics to analyze and make optimal Media business decisions and also to analyze and evaluate the efficiency and effectiveness of media type based on cost, revenue, and performance to match a client's objective with media choices to reach a target audience

Course Contents:

Unit-I: Meaning, Nature and Scope of Business Economics, Micro and

Macro Economics, Demand and Supply- Meaning Schedule, Law of Demand and Supply, Change, Elasticity of Demand and Supply

Unit-II: Theory of Costs- Basic Concepts, Types of Cost, Relationship between Average and Marginal Cost Curve, Basic Concepts of Revenue, Revenue Curves, Types of Revenue, Concept

of Market and Main Forms of Market, Price and Output under Determination Perfect Competition, Monopoly, Monopolistic Competition

Unit-III: Meaning and Features of media, Media Planning and need of Business Economics in Media Industry., Factors Influencing Media Planning, Media Planning Terminology.

Unit-IV: Media Planning Elements, Role of Media in Business, Media Planning Process, Component of a Media Plan, Challenges of Media Planning with respect to business economics (Cost, Revenue, Market condition), ADMAR Satellite Cable Network, Study, Reach and Coverage Study, TRP and GRP

Unit-V: Media Mix & Media Strategy: Meaning, Need, Factors, Types, Class of Media Mix, Deciding Ideal Media Mix

Print Media - Meaning, Factors Affecting, Types, The Economics of Publishing Business.

Television- Meaning, Factors Affecting Selection of Television Media Decisions, Advantages and Limitations

Radio- Meaning & Factors, Radio Costs & Revenues Accounting Norms & Valuation, Concept Out of Home (OOH).

Unit-VI: Meaning, Need for Media Strategy, Situation Analysis for Media Strategy and its Components, Steps in Formulating Media Strategies

Unit-VII: Meaning and Concept of Advertising, India's major Media and Advertising Houses Meaning, Importance, Concept and Factors of Media Budget, Methods of Setting Media Budget (ROI based Approach, BEP Analysis, Advertising Sale), Meaning, Role, Objectives and Process of Media Buying, Role of Media Buyer, Meaning and Importance of Media Scheduling, Factors affecting Media Scheduling, Scheduling Patterns (Continuity, Pulsing, Fighting)

Unit-VIII: Meaning, Importance, Nature and History of New Media, Foundation of New Media, New Media Vs Traditional Media, (in Terms of TV, Radio, Print) Internet Market-Online streaming (music and Video), Podcast Cost, Revenue (hits and bounce rate), Online Advertising Cost, Revenue, social media and Its Impact, Digital Advertising.

Suggested Readings:

1. Chaturvedi D.D.: *Macro Economics, Analysis and Policy*; Galgotia Publishing Company
2. Herrick Dennis .F., *Media Management in Age of Giants*, Surjeet Publications
3. Bhatia H. L. *Micro Economic Theory*; Modern Publisher Delhi
4. KohliVanita, *Indian Media Business*, Sage Publication, New Delhi
5. Menon Arpita: *Media Planning and Buying*, Tata McGraw Hill Education Private Limited

Vidyasagar University
MBA: THIRD SEMESTER
Paper Code: MBA – 314D
Subject: Integrated Marketing Communication for Media
Full Marks: 100 No. of classes: 40 Hours Credit: 4

Course objective: The course objective is to introduce students to the principle and basic concept of marketing communication process in a streamlined integrated marketing strategy and to provide an understanding of integrated marketing communications (IMC) and its influences on other marketing function and other promotional activities.

Course Contents

Unit-I: Integrated Marketing Communication: Meaning, Features, Evolution of IMC, Reasons for Growth of IMC Communication Process, IMC plan & its component, Importance of IMC plan with respect to Information technology, Promotional Tools for IMC, IMC planning process,

Unit-II: Role of IMC in Marketing Decision, Establishing Objectives and Budgeting: Promotional Objectives, Sales vs. Communication Objectives, DAGMAR

Unit-III: Elements of IMC: Sales promotion – Scope, role of Sales Promotion as IMC tool, Types of Sales Promotion, Public Relations and Publicity – Introduction, Role of PR in IMC, Publicity, Sponsorship – definition, Essentials, event & cause
Sponsorship,

Unit-IV: Advertising – Features, Role, Types of Advertising in IMC, Advantages and Disadvantages

Unit-V: Types of Media used for advertising, Categories of Adoption and Innovation. Application of Advertising Campaigns, Brand Positioning through Advertising, Application of Print Advertisement, Television Advertising, Legal and Ethical Aspects of Advertising, Advertising Agencies, Agency Selection Criteria

Unit-VI: Advertising Budget and Measuring Effectiveness, Methods of advertising Budgeting. Advertising Policy and Approaches. Measuring Effectiveness of Advertisement & Promotional program and evaluating social, Ethical, and Economics Aspects.

Unit-VII: Advertising Research – What, When, Where and How, Testing Process Ethics in Advertising and Promotion Ethics, Advertising and Children, Social and Cultural Consequences.

Unit-VIII: Designing Ad Layout, Format, Balance, Stages Basics of Ad Copy Writing - Scripting for Radio & Television, Generating Innovative Ideas for Scripting, Unique Needs in Writing for Radio, Direct Mail, Outdoor & Outdoor Transit Media, Point of Purchase.

Suggested Readings:

1. Aakar , Batra and Myers: *Advertising Management* , PHI
2. Blown & Bach,: *Integrated Marketing Communications*, PHI
3. Belch Michae & Purani Keyoor: *Advertising & Promotion- An Integrated Marketing Communications Perspective*, McGraw Hill
4. Chunawalla, S.A.: *Foundations of Advertising: Theory &Practice*, New Delhi, Himalaya Publishing House
5. Kazmi S H and Batra Satish K, *Advertising & Promotions*, Excel

Specialization: Pharmaceutical Management

VIDYASAGAR UNIVERSITY

MBA: THIRD SEMESTER

Paper Code: MBA- 315A

Subject: Microbiology and Immunology

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: The candidates undertaking this course will gain knowledge about the structure of bacteria; types of microscopes and microscopy; sterilization methods and quality control; disinfection, antibiotics – testing and quality control; alga structure and life-cycle patterns. They will learn about immunity, organs of immunity and cells involved; Types of antigens and properties; immunoglobulin – types; MHC and its significance; hypersensitivity reactions.

Course Contents:

Unit-I: Introduction: Evolution and scope of microbiology; Description of various groups of microorganisms with typical example; Cell cycle and reproduction of bacteria; Bacterial cell structure and components, bacterial growth curve in batch culture

Unit-II: Antibiotics: Antibiotics Classification, Mode of Action, mechanism of resistance, Evaluation–Disc Diffusion; MIC–Broth dilution, agar dilution; MBC; E-test with Quality control for each method.

Unit-III: Immune system: Introduction- immunity-types-innate, acquired. Ontogeny and Physiology of immune system-Primary and Secondary lymphoid organs, lymphoid tissues; Immunoreactive cells- structure and functions-macro phages, granulocytes, NK cells, T and B lymphocytes– origin, development, differentiation, lymphocyte subpopulation in humans.

Unit-IV: Antigens: Antigens and immunogenicity- terminologies and definition- antigen, immunogen, haptens, superantigen, tolerantes, epitope, paratope. Features associated with antigenicity and immunogenicity. Basis of antigen specificity. MHC – types and importance-distribution and function. Antigen processing and presentation to T-lymphocytes.

Unit-V: Immunoglobulins: Immunoglobulin- structure, types, distribution, biological and chemical properties - Theories of anti-body production-its regulation and diversity. Monoclonal and polyclonal antibodies; Complement system – mode of activation- Classical, Alternate and Lectin pathways, biological functions.

Unit-VI: Immune response: Antigen recognition–TCR, BCR, MHC restriction, lymphocyte activation, clonal proliferation and differentiation. Physiology of acquired immune response – various phases of HI, CMI – cell mediated cytotoxicity, DTH response.

Unit-VII: Hypersensitivity: Hypersensitivity– types and mechanisms, Autoimmunity, Tumor and Transplantation immunology. Immune regulation mechanisms – brief account on immuno-induction, immuno-suppression, immuno-tolerance, immuno-potentiation. Role of cytokines, lymphokines and chemokines.

Suggested Readings:

1. Pelczar, M.J., Chan, E.C.S. and Kreig, N.R.: *Microbiology*, Tata McGraw-Hill,
2. AnantanarayanR., PanickerC.K.: *Text Book of Microbiology*, University Press,
3. Jain,N.K.: *Pharmaceutical Microbiology*, Vallabh Prakashan
4. Madan,P. L.: *Biopharmaceutics and Pharmacokinetics*, Jaypee Publisher,
5. Abbas,A., Lichtman, A., Pillai S.: *Cellular and Molecular Immunology*, Elsevier US

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 315B
Subject: Bio-pharmaceutics and Pharmacology
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: Students will understand the pharmacological actions of different categories of drugs and explain the mechanism of drug action at organ system/sub cellular/ macromolecular levels. They will be able to Appreciate correlation of pharmacology with other bio medical sciences.

Course Contents:

Unit-I: General Pharmacology: a. Introduction to Pharmacology- Definition, historical landmarks and scope of pharmacology, nature and source of drugs, essential drugs concept and routes of drug administration, Agonists, antagonists (competitive and non-competitive), spare receptors, addiction, tolerance, dependence, tachyphylaxis, idiosyncrasy, allergy. b. Pharmacokinetics-

Membrane transport, absorption, distribution, metabolism and excretion of drugs. Enzyme induction, enzyme inhibition, kinetics of elimination.

Unit-II: Pharmacodynamics: Principles and mechanisms of drug action. Receptor theories and classification of receptors, regulation of receptors; drug receptors interactions signal transduction mechanisms, G-protein–coupled receptors, ion channel receptor, transmembrane enzyme linked receptors, transmembrane JAK-STAT binding receptor and receptors that regulate transcription factors.

Unit-III: Pharmacotherapeutics: Dose response relationship, therapeutic index, combined effects of drugs and factors modifying drug action. b. Adverse drug reactions. c. Drug interactions (pharmacokinetic and pharmacodynamic) d. Drug discovery and clinical evaluation of new drugs -Drug discovery phase, preclinical evaluation phase, clinical trial phase, phases of clinical trials and pharmacovigilance.

Unit-IV: Introduction to Biopharmaceutics: Absorption; Mechanisms of drug absorption through GIT, factors influencing drug absorption through GIT, absorption of drug from Non-per oral extra-vascular routes, Distribution of drugs Tissue permeability of drugs, binding of drugs, apparent, volume of drug distribution, protein binding of drugs, factors affecting protein-drug binding. Kinetics of protein binding, Clinical significance of protein binding of drugs.

Unit-V: Drug Elimination: Renal excretion of drugs, factors affecting renal excretion of drugs, renal clearance, Non-renal routes of drug excretion of drugs.

Unit-VI: Bioavailability and Bioequivalence: Objectives of bioavailability studies, absolute and relative bioavailability, measurement of bioavailability, in-vitro drug dissolution models, in-vitro, in-vivo correlations, bioequivalence studies, methods to enhance the bioavailability.

Unit-VII: Pharmacokinetics: Introduction to Pharmacokinetics models, Compartment models, Non compartment models, physiological models, One compartment open model.

Suggested Readings:

1. Tripathi, K. D.: *Essentials of Medical Pharmacology*, Jaypee Brothers Medical Publishers (P) Ltd, New Delhi.
2. Sharma H. L., Sharma K. K.: *Principles of Pharmacology*, Paras Medical Publisher
3. Charles, R. C., Robert E. S.: *Modern Pharmacology with clinical Applications*, Lippincott Williams & Wilkins
4. Ghosh, M. N.: *Fundamentals of Experimental Pharmacology*, Hilton & Company,
5. Kulkarni, S.K.: *Handbook of Experimental Pharmacology*, Vallabh Prakashan
6. Ferro, A.: *A Textbook of Clinical Pharmacology and Therapeutics*, Hodder Arnold
7. Udaykumar, P.: *Medical Pharmacology*, CBS Publisher

VIDYASAGAR UNIVERSITY

MBA: THIRD SEMESTER

Paper Code: MBA- 315C

Subject: Supply Chain Management in Pharmaceutical Industry

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective: The objectives of this course are to understand: Importance and objective of Supply Chain Management, Drivers of Supply Chain Performance – Facilities, Inventory, Transportation, Information, Sourcing and Pricing; Models for facility location and capacity allocation, Drug Procurement Process and Quantifying Drug Requirements. Demand Forecasting in Supply Chain, Aggregate Planning in Supply Chain

Course Contents:

Unit-I: Introduction to Pharma Supply Chain Management: What is Supply Chain?, The Objective of a Supply Chain, The Importance of Supply Chain Decisions, Drivers of Supply Chain Performance – Facilities, Inventory, Transportation, Information, Sourcing and Pricing

Unit-II: Procurement and Distribution Procurement policy in the pharmacy, Efficient transparent management, Selection of Pharmaceuticals, Supplier selection and Quality Assurance, Supply of

Medicine, financing and competition. Distribution of pharmaceuticals to wards and health facilities, Transporting drugs safely

Unit-III: Quantifying Drug Requirements, Importance of quantification, District Action Planning, Quantification Process, Quantification methods, Details of Consumption Method, Quantification of drugs calculation sheet, VEN and ABC analysis

Unit-IV: Drug Stores Management Procurement information, Stock Records, Flow of Stock and Paper Code work, Inspection for Drug receipts, Discrepancy report, Stock control using FIFO basis, Inventory Tracking, Housekeeping, Disposal of Expired or Damaged Stock

Unit-V: Demand Forecasting in Supply Chain, The Role of Forecasting in a Supply Chain, Characteristics of Forecasts, Components of a Forecast and Forecasting Methods, Time-Series Forecasting Methods, Measures of Forecast Error

Unit-VI: Planning and managing inventories in Supply Chain; The Role of Inventory in a Supply Chain, Material Management, Inventory and EOQ Model Economies of Scale to Exploit Quantity Discounts, ABC and VEN analysis

Unit-VII: Warehouse Management Considerations while constructing a medical store, designing a medical store, Materials Handling equipment, Store layout planning, Cold Chain Management.

Suggested Readings:

1. Hedley,R.,Supply Chain Management - *Delivering Patient Value for Pharmaceuticals and Biologics*, John Wiley &Sons, Inc., USA.
2. Simchi-Levy, D., Kaminsky, P. &Simchi-Levy, E.: *Managing the Supply Chain: The Definitive Guide for the Business Professional*, Tata McGraw-Hill, New Delhi.
3. Cohen, S. &Roussel, J.: *Strategic Supply Chain Management*, McGraw-Hill, USA.
4. Chopra, S., Mendle, P.: *Supply Chain Management - Strategy, Planning, and Operation*, Pearson Education, Inc., USA.
5. Whewell, R.: *Supply Chain in the Pharmaceutical Industry: Strategic Influences and Supply Chain Responses*, Routledge Publisher

6. Kuglin, A. F.: *Pharmaceutical Supply Chain*, CRC Press
7. Hedley, R.: *Supply Chain Management in the Drug Industry*, Wiley Publisher

VIDYASAGAR UNIVERSITY
MBA: THIRD SEMESTER
Paper Code: MBA- 315D
Subject: Brand Management in Pharmaceutical Industry
FullMarks:100 No. of Classes: 40 Hours4 Credits

Course Objective: The course aims at an understanding of Pharma product and brand management skills and techniques that are commonly applied in industry. The objectives of this course are to understand concept of product and product management, describe different elements of a Pharma product mix, product life cycle and brand Demonstrate understanding of the product planning and pricing, strategy concepts

Course Contents:

Unit-I: Introduction to Product Management: Definition, role of product management and scope of product management, product levels, societal classification of the product by Kotler, classification of Pharma products, market research and its contribution in product development and management

Unit-II: New Product Development, Product Mix and Product lifecycle: Definition of new product, type of new products, product innovation, Roger's diffusion of innovation curve, technology product life cycle management, product portfolio management strategies, product mix and product line strategies, product life cycle concept and its linkage with the pharmaceutical industry

Unit-III: Product Planning and Pricing Strategies: Introduction, objectives of product planning, components of product planning, product portfolio planning, product-line decisions, product mix decisions, pricing, importance of price, objectives of pricing, factors influencing the price determination, pricing policies, pricing methods or determination or the price of pharma product

Unit-IV: Branding of the Pharma Products: What is a Brand: History, branding elements- brand identity, brand personality, brand communication, Brand Name, Brand Image, Brand Value and Brand Awareness

Students will learn how to identify brand meaning and to measure brand strength for any particular market offering. Moreover, students can apply branding principles and marketing communication concepts and frameworks to achieve brand management goals and improve marketing performance.

Course Contents

Unit 1: Brands and Brand Management: Brand, Brand Elements, Brands versus Products, Why do Brands Matter? Can Anything be Branded? What are the Strongest Brands? Branding Challenges and Opportunities

Unit II: Creating a Brand: Brand Visioning, Brand Identity and Image, Brand Identity Frameworks, Customer-based Brand Equity, Brand Equity as a Bridge, Making a Brand Strong: Brand Knowledge Sources of Brand Equity, Brand Awareness, Brand Image

Unit-III: Identifying and Establishing Brand Positioning: Basic Concepts, Target Market, Nature of Competition, Points-of-Parity and Points-of-Difference Brand Mantras, Brand Positioning Strategies

Unit IV: Brand Leveraging & Brand Performance: Establishing a Brand Equity Management System, Measuring Sources of Brand Equity and Consumer Mindset, Co-branding, Celebrity Endorsement, Brand Personality

Unit V: Measuring Outcomes of Brand Equity: Capturing Market Performance, Comparative Methods- Brand-based Comparative Approaches, Marketing-based Comparative Approaches, Conjoint Analysis, Holistic Methods- Residual Approaches, Valuation Approaches

Unit VI: Brand Strategies: Tradeoff between Efficiency and Effectiveness; Brand Architecture and Portfolio; Product Life Cycle, Brand Life Cycle- Challenges and Strategies

Unit VII: Managing Brands over Time, Reinforcing Brands, Maintaining Brand Consistency, Protecting Sources of Brand Equity, Fortifying versus Leveraging, Revitalizing Brands, Brand Stretch, Brand Extensions.

Unit VIII: Managing Brands over Geographic Boundaries and Market Segments: Regional Market Segments, Other Demographic and Cultural Segments, Advantages of Global Marketing, Disadvantages of Global Marketing Programs, Global Brand Strategy, Standardization Versus Customization, Developing Versus Developed Markets, Building Global Customer-Based Brand Equity

Suggested Readings:

1. Aaker, D. and Joachimsthaler E, *Brand Leadership: The Next Level of the Brand Revolution*, NY: The Free Press
2. Kapferer JN, *The New Strategic Brand Management: Creating and Sustaining Brand Equity Long Term*, Kogan Page, London
3. Kevin Lane Keller, *Strategic Brand Management: Building, Measuring, and Managing Brand Equity*, NJ: Prentice Hall
4. Kumar R. *Managing Indian Brands*, Vikas Publishing
5. Travis, D. *Emotional Branding*, Random House, California
6. Verma H V. *Brand Management: Text and Cases*, Excel Books, New Delhi
7. Verma HV. *Branding Demystified: From Plans to Payoffs*, Sage Publications, New Delhi

Specialization: Human Resource

VIDYASAGAR UNIVERSITY

MBA: FOURTH SEMESTER

(Effective from 2022-23)

Paper Code: MBA- 408A

Subject: Leadership and Team Dynamics

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

This course is designed to be an interactive exploration of team dynamics and leadership. Through the introduction of current theories and models, students will learn to work effectively in groups, increase their understanding of leadership, make effective decisions, and stimulate the development of new skills through demonstration and practice.

Course Contents

Unit I: Introduction: Meaning, Definitions, Skills and Roles of a Leader, Leadership Traits, Dilemmas and Issues in Becoming a Leader

Unit II: Leadership Theories and Styles: Charismatic and Transformational Leadership, Team Leadership, Organizational Leadership, Strategic Leadership, Leadership for Creating High Performance Culture

Unit III: Leadership Development: Self-Awareness and Self-Discipline, Development through Education, Experience and Mentoring, Succession, Evaluation of leadership Development Efforts, Leadership Communication

Unit IV: Form of Leadership: Strategic Leadership, Ethical Leadership, the Leader as Social Architect-Creating Vision and Strategic Direction, Shaping Culture and Values, Designing and Leading a Learning Organisation, Leading Change

Unit V: Introduction to Team: Meaning, Concept, Definitions, Team, Group, Team Dynamics Team Composition, Formation, and Development-Team Performance, Team vs. group

Unit VI: Team Conflict and Leadership: Team Decision Making, Discovering the Interpersonal Orientation through FIRO-B. Experiential Learning Methodologies-T- Group Sensitivity Training,

Encounter Groups, Appreciative Enquiry, Discovering Facets of Interpersonal Trust through Johari Window, Communication Skills, Negotiation Skills and Strategies for Team Building, Team Morale

Unit VII: Conflict Resolution in Teams: Competitive vs. Collaborative Behavior, Developing Collaboration

Suggested Readings:

1. Yukl, G., *Leadership in Organizations*, Pearson
2. Kotter, J., *What Leaders Really Do* Kotter, J. Harvard Business Review May/June
3. Richard L. Hughes, *Leadership*, McGraw-Hill. ed. 8
4. Bass, B.M., *Leadership*, Psychology and Organizational Behaviour, Greenwood Pub Group
5. Northouse, P.G., *Leadership - Theory and Practice*, Sage Publications
6. Purohit, & Nayak, S., *Enhancing Personal Effectiveness: Training Instruments for Students, Teachers and Parents*, Tata McGraw-Hill
8. Tannenbaum, R., Weschler, I.R. and Hansen, J., *Leadership and Organization: A Behavioral Science Approach*, McGraw-Hill

VIDYASAGAR UNIVERSITY
MBA: FOURTH SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 408B
Subject: Strategic Human Resource Management
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The course aims to sensitize the students to adapt to the changing HR landscape and create scope for a steady career progression. It will help them to develop ability to resourcefully use analytical information to improve the organization and its people. The course will help to effectively understand the HR bottlenecks and how well certain processes are performing. It'll also help to understand International HRM in the context of Strategic HRM.

Course Contents

Unit I: Understanding Strategic HRM: Traditional vs. Strategic HRM, Process, Aligning with Business Strategies, Strategy Implementation: Strategic Recruitment, Strategic Training, Strategic Compensation, Strategic Performance Appraisal, Talent Management

Unit II: Investment Perspective of Human Resources: Investment Consideration, Investments in Training and Development, Investment Practices for Improved Retention, Investments Job Secure Work Courses, Non-Traditional Investment Approaches

Unit III: Human Resource Strategy (HRS): Concept, Approaches, HRS and Business Strategy, Change Management Strategies, Training and Development Strategies, Organizational Performance and HRS: HRM Strategy and Difficulties in Its Implantation

Unit IV: Strategic Human Resource Processes: Work Force Utilization and Employment Practices, Efficient Utilization of Human Resources, Dealing with Employee Shortages, Selection of Employees, Dealing with Employee Surpluses and Special Implementation Challenges. Reward and Development Systems, Strategically Oriented Performance Management Systems, Oriented Compensation Systems and Employee Development

Unit V: New Economic Policy and HRM Strategy: Role of Human Resources in Strategy Formulation: Integrating Human Resources in Strategic Decisions, HRS and HRIS, Human Resource Strategy: Some Key Issues, HRM Strategy for Future

Unit VI: Reengineering Human Resource Processes: Why Re-engineering HR? Structure of Re-engineering, Action Steps for Re-engineering, Forming a Steering Team and Implementation Teams, Pilot Testing Re-engineering Systems, Empowerment, Accountability and Monitoring, Create a Sense of Urgency, Manage Fears Associated with Change

Suggested Readings:

1. Armstrong, M., *Armstrong's handbook of strategic human resource management*, Kogan Page Publishers
2. Mello, J. A., *Strategic human resource management*, Cengage Learning.
3. Rees, G., & Smith, P. (Eds.), *Strategic human resource management: An international perspective*, Sage
4. Greer, C. R., *Strategic human resource management*, Pearson Custom Publishing
5. Dhar, R. L., *Strategic human resource management*, Excel Books India
6. Regis, R., *Strategic human resource management and development*, Excel Books India

VIDYASAGAR UNIVERSITY
MBA: FOURTH SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 408C
Subject: Digital Human Resource Management
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The course will help the students to understand how to create a successful digital HR strategy for an organization and what the term 'digital' means for a progressive HR function. It will help to gain a greater understanding of the organizational culture and how to engage the workforce in alignment with business needs. After taking the course, the students shall have the knowledge about digitization tools and shall be able to effectively support the organisation through the digital transformation and create a successful digital HR strategy.

Course Contents

Unit I: The People based Approach in HRM: Introduction, The Theoretical Origins of a Certain Processes is Performing People based Approach, Positive Effects of a People based Effect on Organizational Performance, Exploring Challenges and Benefits of This Approach

Unit II: The Cognitive Technology Revolution: A New Identity for Workers: Introduction, A New Context of Work, A New Workforce, A New Career Identity, A New Role of HR Practices: Introduction, Digital Processing and Use of Analytics, Challenges and Opportunities of Robotics for HRM

Unit III: Social Networks as Strategically of HRM: Introduction, Social Collaboration at Work, Social Collaboration Platforms; The Game Changers: Introduction, Transformation Starts with the Change in Culture, Data-Driven Transformation, Building a Sustainable Agile Digital Strategy for HR

Unit IV: Impact of the Gig Economy and the Next Generation in Jobs, Reskilling and Collaboration: Introduction, Reskilling Imperative and Solutions for Organizations, The Future of Human and Machine Collaboration, Unlocking New Values with Innovation

Unit V: Evolution of Modern Organizations and Movements, Enabling a Responsible and Sustainable Organization, Creating a Fairer Society, Transformation of HRM from an Analogical to a Social Process

Unit VI: Unlocking New Values with Innovation, Diversity in the VUCA World, Establishing the Innovation Culture, Growing Ecosystems and Social Capital, Community Driven Learning in Organizations

Suggested Readings:

1. Waddill, D. D., *Digital HR: A guide to technology-enabled human resources*, Society For Human Resource Management
2. Manuti, A., & De Palma, P. D., *The social organization: Managing human capital through social media*, Springer
3. Cantoni, F., & Mangia, G. (Eds.), *Human resource management and digitalization*, Routledge
4. Thite, M. (Ed.), *e-HRM: Digital approaches, directions & applications*, Routledge
5. Sen, S., *Digital HR strategy: Achieving sustainable transformation in the digital age*, Kogan Page Publishers .

VIDYASAGAR UNIVERSITY
MBA: FOURTH SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 408D
Subject: HR Analytics
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The course will help the students to adapt to the changing HR landscape and understand the impact of technology on HR processes. It will help to develop the ability to resourcefully use analytical information to improve the organization and its people. The course will not only help to secure the right piece of information through analytics and take an informed decision but also effectively measure tracking metrics which offer valuable insights into how well certain processes are performing.

Course Contents

Unit I: Introduction: Role of Analytics, Defining HR Analytics, HR Analytics: The Third Wave for HR Value Creation, HR Measurement Journey in Tune with HR Maturity Journey, Understanding the organizational System (Lean), Locating the HR Challenge in the System, Valuing HR Analytics in the Organizational System, Typical Problems (Working Session)

Unit II: Predictive Analytics: Steps Involved in Predictive Analytics: Determine Key Performance Indicator, Analyse and Report Data, Interpreting the Results and Predicting the Future. Metrics and Regression Analysis and Causation

Unit III: Workforce Analytics: Definition, Evolution, Function of Workforce Analytics, Use of HR Metrics to Measure Results in HR - Process vs Outcome; Challenges in Measuring Human Capital, HR Business Framework, Concept of Balanced Score Card

Unit IV: Recruitment Metrics: Fill-Up Ratio, Time to Hire, Cost Per Hire, Early Turnover, Termination during Probation, Channel Efficiency Mix in Terms of Direct Hires, Employee Referral Hires, Agency Hires & Lateral Hires, Offer Reject and Renege, Fulfillment Ratio, Quality of Hire, Recruitment to HR Cost

Unit V: Talent & Diversity Metrics: Retention Index, Voluntary and Involuntary Turnover, Turnover

by Department, Grades, Performance, and Service Tenure, Internal Hired Index. People Deployment Metrics: Employees per Manager, Employee Service Profiling, Workforce Age Profiling, Workforce Service Profiling, Churn Index, Separation Clearance Time; Diversity Metrics: Workforce Diversity Index, Gender Mix, Differently Able Index, Implementation Challenges

Unit VI: Learning & Development Metrics: Training Need Identification, Make or Buy Model, Training Effectiveness Evaluation, Percentage of Employee Trained, Internally and Externally Trained, Training Hours and Cost per Employee, ROI Calculation; Internal Mobility Metrics: Career Progression Indices - Promotion Index, Rotation Index, Career Path Index, Level wise Succession Readiness Index

Unit VII: HR Cost Metrics: Revenue per Employee, Operating Cost per Employee, PBT per Employee, HR Cost per Employee, HR to Operating Cost, Compensation to HR Cost, HR Budget Variance, HR ROI

Unit VIII:HR Scorecard: Assessing HR Program, Engagement and Turnover, Finding Money in Analytics, Linking HR Data to Operational Performance, HR Data and Stock Performance. Creating HR Scorecard, Develop an HR Measurement System, Guidelines for Implementing a HR Scorecard

Suggested Readings:

1. Soundararajan, R., & Singh, K., *Winning on HR analytics: Leveraging data for competitive advantage*, SAGE Publications
2. Bhattacharyya, D. K., *HR analytics: Understanding theories and applications*, SAGE Publications India Pvt Limited
3. Waters, S. D., Streets, V. N., McFarlane, L., & Johnson-Murray, R., *The practical guide to HR analytics: Using data to inform, transform, and empower HR decisions*, Society for Human Resource Management
4. Pease, G., Byerly, B., & Fitz-enz, J., *Human capital analytics: How to harness the potential of your organization's greatest asset*, John Wiley & Sons
5. Sundmark, L., *Doing HR Analytics: A Practitioner's Handbook with R Examples*. Create Space Independent Publishing Platform
6. Guenole, N., Ferrar, J., & Feinzig, S., *The power of people: Learn how successful organizations use workforce analytics to improve business performance*, FT Press

Specialization: Business Analytics and Data Science

VIDYASAGAR UNIVERSITY

MBA: FOURTH SEMESTER

(Effective from 2022-23)

Paper Code: MBA- 409A

Subject: Big Data and SQL

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

This course helps learners to use Big Data in Marketing, Finance, HR, and Supply Chain Management. It helps to acquire in-depth application of SQL, Use of Spark Map Transformation. It develops an understanding of the core components of Hadoop.

Course Contents

Unit I: Overview of Big Data: History of Big Data, Elements of Big Data, Career related Knowledge in Big Data, Advantages, Disadvantages, Structured and Unstructured Data

Unit II: Using Big Data in Businesses: Use of Big Data in Marketing, Finance, HR, Production and Supply Chain Management

Unit III: Data Analytics in SQL: Introduction, Getting Started with Virtual Labs, Handling Multiple Rows for Single Record, Consolidating Multiple Results, Caching Your Views, Linked Servers, Collation Incompatibilities, Catching Errors, Base 64 Encoding &Decoding. Advanced SQL, Data Analysis Using SQL, Assignment – SQL, Selecting Columns, Filtering Rows, Aggregate Function, Sorting Groups & Join

Unit IV: Technologies for Handling Big Data: Introduction to Hadoop, Functioning of Hadoop, Cloud Computing (Features, Advantages, Applications), Application Data Store (NOSQL, OLAP)

Unit V: Big Ingestion & Processing: Big Data Architecture &Pattern, Data Ignition Layer, Data Collector Layer, Data Processing Layer, Data Storage Layer, Data Query Layer, Data Visualization Layer

Unit VI: Big Data Processing Using Apache Spark: Apache Spark Introduction & Architecture Deep Dive, Working with Text Files to Create Resilient Distributed Datasets (RDD) in Spark, Understanding the Partitioning & Distributed Nature of RDD in Spark, Developing Mastery in Spark Map Transformation & Lazy DAG Execution Model, Using Map Transformation on Real World Big Data Retail Analysis, Developing Mastery on Spark Filter Transformation, Developing Mastery in RDD of Scala Collection, NYC Parking Case Study

Suggested Readings:

1. Acharya SCS, *Big Data and Analytics*, Wiley
2. Kamal R, *Big Data Analytics, Introduction to Hadoop, Spark, and Machine-Learning*, McGraw Hill Education
3. Bahga A, *Big Data Analytics: A Hands-On Approach*, VPT
4. Groff J, *SQL the Complete Reference*, McGraw Hill Education
5. Zomaya and Sakr, *Handbook of Big Data Technology*, Springer International Publishing
6. Sumit Gupta, *Real Time Big Data Analytics Book*, Packt Publishing
7. J. W. Forema, *Data Smart: Using Data Science to Transform Information into Insight*, Wiley

VIDYASAGAR UNIVERSITY
MBA: FOURTH SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 409B
Subject: Business Analytics using IOT, AI and ML
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The purpose of this course is to understand the basic concept of the Internet of things and its applications. The emphasis is on explaining and understanding the concept of Artificial Intelligence. The objective of this paper is to familiarize with knowledge-based AI systems and approaches. It also recognizes the concepts of Machine Learning and its deterministic tools.

Course Contents

Unit I: IOT Basics: Internet in General and Internet of Things: Layers, Protocols, Packets, Services, Performance Parameters of a Packet Network as Well as Applications Such As Web, Peer-To-Peer, Sensor Networks, and Multimedia. IoT Definitions: Overview, Applications, Potential & Challenges, and Architecture. Transport Services: TCP, UDP, Socket Programming. Network Layer: Forwarding & Routing Algorithms (Link, DV), IP-Addresses, DNS, NAT, and Routers. Local Area Networks, MAC Level, Link Protocols Such As: Point-To-Point Protocols, Ethernet, Wi-Fi 802.11, Cellular Internet Access, and Machine-To-Machine

Unit II: Artificial Intelligence (AI): History of Artificial Intelligence, Differences between Strong AI and Weak AI, Artificial Intelligence Definitions, Emergence of AI – Technological Advances, Machine Learning, Deep Learning, Functions of AI, Characteristics of Artificial Intelligence, Applications of AI, AI in Health Care, Industry 4.0, AI in Manufacturing, AI in Education Sector, AI in Business, AI in Finance Sector, AI in Law, AI in Society

Unit III: Machine Learning (ML): Motivation for Machine Learning, Applications, Machine Learning, Learning Associations, Classification, Regression, The Origin Of Machine Learning, Uses and Abuses of Machine Learning, Metrics for Evaluation of Classification Method, Steps to Apply Machine Learning to Data, Machine Learning Process, Classification of Machine Learning Reinforcement Learning, Supervised Learning, Unsupervised Learning, Semi-Supervised Learning, Supervised

Learning, Regression, Linear Regression, Multiple Linear Regression, A Multiple Regression Analysis, the Analysis of Variance for Multiple Regression, Examples for Multiple Regression, Logistic Regression, Decision Trees: Background, Clustering, K – Means Clustering, Risk Modelling, Sensitivity Analysis, Casual Learning.

Suggested Readings:

1. Anuradha Srinivasaraghavan and Vincy Joseph, *Machine Learning*, Wiley
2. Tom M Mitchell, *Machine Learning*, McGraw Hill Education
3. Stuart J Russell and Peter Norvig, *Artificial Intelligence: A Modern Approach*, Pearson Education India
4. Vijay Madisetti and Arshdeep Bahga, *Internet of Things (A Hands-on Approach)*, VPT
5. Walter Daelemans, Katharina Morik, *Machine Learning and Knowledge Discovery*, Springer

Specialization: Retail Management

VIDYASAGAR UNIVERSITY

MBA: FOURTH SEMESTER

(Effective from 2022-23)

Paper Code: MBA- 410A

Subject: Sectoral Retailing

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

Objective of the course is to give a basic perspective of sectoral retailing. This will form foundation to study of the functional areas of both retail and merchandising management from different sectors' point of view and to provide the students with the conceptual framework of customized approaches towards the theories underlying sectoral retailing.

Course Contents

Unit I: Organized and Unorganized Retailing: Difference, Drivers of Retail Changes in India, Theories of Retail Development & Business Models in Retail

Unit II: Retail Sectors: An Overview and Growth in Indian Market, Financial Retail, Jewellery Retail, Pharmaceutical Retail, Travel and Tourism Retail, Lifestyle Retailing, Luxury Retailing, Other Contemporary Sectors of Retail

Unit III: Financial Retailing: Definition, Types, Features, Composition & Size in India, Key Players

Unit IV: Jewellery Retailing: Definition, Types, Features, Composition & Size in India, Key Players, Jewellery vs. Luxury Retailing

Unit V: Pharma Retailing: Definition, Types, Features, Composition & Size in India, Key Players, Health and Medical Tourism, Various Other Forms of Pharmaceutical Retailing

Unit VI: Travel and Tourism Retail Culture & Heritage, Eco-tourism, Sport & Adventure Tourism, Wildlife Tourism, Rural & Village Tourism, Beach & Coastal Tourism, Shopping Destination, WTTC, ITDC, Barrier and Types of Travelers

Unit VII: Lifestyle and Luxury Retailing: Definition, Types, Features, Composition & Size in India, Key Players in both Lifestyle and Luxury Retailing

Suggested Readings:

1. Pradhan, Swapna, *Retail Management*, Tata McGraw-Hill Education
2. Bajaj, Chetan; Tuli, Rajnish and Srivastava, Nidhi, *Retail Management*, Oxford University Press
3. Bhalla, Swati and Anurag S., *Visual Merchandising*, McGraw Hill Education
4. Berman and Evans, *Retail Management A Strategic Approach*, Pearson
5. Levy, Michael; Weitz, Barton A. and Pandit, Ajay, *Retailing Management*, Tata McGraw Hill, New Delhi
6. Swapnil Saurav, Ravi Potti, *The A to Z of Retail Management*, Eka Publishers
7. Seshanna Sudarshan, Prasad Raghu, *Retail Management*, McGraw Hill Education

VIDYASAGAR UNIVERSITY
MBA: FOURTH SEMESTER
(Effective from 2022-23)
Paper Code: MBA- 410B
Subject: International Retailing
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

Objective of the course is to give a basic perspective of international retailing. This will form foundation to study of the functional areas of various international retailing environments that is different from India's retailing environment.

Course Contents

Unit I: International Marketing: Scope and Concepts of International Marketing, International Marketing Environment, International Trade, Barriers and Facilitators, Regional Economic/Political Integration, Cultural Influences on International Marketing, International Marketing Research, International Marketing Segmentation, Positioning- The Marketing Plan and Entry Mode Selection, Products and Services, Branding Decisions, International Product and Service Strategies, International Distribution and Logistics

Unit II: International Retailing: Alternative Conceptions of International Retailing, Definitions, Interpretations and Classification, Trends in the Internationalization of Retailing and Evolution of International Retailing, Motives for International Retailing, Changing Nature of Boundaries

Unit III: International Retailing: Where Retailers Practice Internationalization, Assessing the Potential of Retail Markets, Methods of International Retailing, Accessing Retail Markets, the Form of Entry, Joint Ventures, Franchising, Acquisition, etc. Marketing Planning for Differing International and Regional Requirements

Unit IV: Competing in Foreign Markets: Why Companies Expand into Foreign Markets, Cross-Country Differences in Cultural, Demographic and Market Conditions, Concept of Multi Country Competition and Global Competition, Strategy Options for Entering and Competing in Foreign Markets, Quest for Competitive Advantage in Foreign Markets, Profit Sanctuaries, Cross Market Subsidization and Global, Strategic Offensives, Strategic Alliances and Joint Ventures with Foreign Partners, Competing in Emerging Foreign Markets, Cross Border Strategic Alliances

Unit V: Retail Structure: Enterprise Density, Market Concentration, Product Sector, Innovation-Employment Structure, Merging Structure, Global Structure, Developing Markets, Stages in Development of International Operations, Export, Management Contracts, Franchising, Acquisition and Mergers, Organic Growth, Choice of Market Entry, Domestic Market

Unit VI: Retail Operations: Non-Domestic Market, Retail Positioning and Brand Image, Measurement of Store Image, Open Ended Techniques, Attitude Scaling Techniques, Multi Attribute Model, Multi-Dimensional Scaling, Conjoint Analysis

Unit VII: Market Research: Segmentation, Targeting, Positioning, The Market Mix, Image, Product Range, Format, Price, Location, Distribution, Promotion, Promotional Mix and Advertising, Publicity, PR, and Sales Promotion Strategies, Personal Selling and Sales Management, International Pricing Strategy, Developing and Controlling an Intl. Marketing Plan

Suggested Readings:

1. Alexander Nicolas, *International Retailing*, Blackwell Business Publishers Ltd.
2. Arthur A. Thompson Jr., A.J. Strickland, John E Gamble & Jain Arun K, *Crafting and Executing Strategy-Concepts and Cases*, Tata McGraw Hill.
3. Ali Abbas J, *Globalization of Business- Practice and Theory*, Jaico Publishing House.

4. Bruce Margaret, Moore Chistopher, Birtwistle Grete, *International Retail Marketing: A Case Study Approach*, A Butterworth-Heinemann Title.
5. Findlay Allan M, Paddision Ronan and Dawson John A., *Retailing Environments in Developing Countries*, Rutledge
6. Chandra Arun, Rau Pradeep & Ryans John K, *India Business: Finding Opportunities in this Big Emerging Market*, Paramount Market Publishing Inc
7. Mcgoldrick Peter. J, Davies Gary, *International Retailing Trends and Strategies*, Prentice Hall

Specialization: Digital Marketing

VIDYASAGAR UNIVERSITY
MBA: FOURTH SEMESTER
Paper Code: MBA- 411A
Subject: Social Media Marketing
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The objective of this paper is to enable students understand the key concepts of social media marketing. Students should be able to understand the process of setting up and analyzing Facebook Ad campaigns. They should also be able to implement digital marketing strategy through Instagram. This eventually will ensure that students understand the basics of content writing and understand the effectiveness of brand storytelling to reach out to their target audience. Through real life case studies, students should be able to understand, differentiate and modify the content marketing strategies of an organization for achieving better results.

Course Contents

Unit I: Introduction to Social Media Marketing: Introduction to the Concept of Social Media, Definition, Characteristics, Scope & History; Social Media Platforms, Facebook, YouTube, LinkedIn, Instagram, Twitter, Pinterest, Blogs, importance of Social Media Marketing, Social Media Marketing Advantages and Limitations, Social Media Marketing Strategies

Unit II: Content Designing for Social Media Platforms: Terminologies, Basics of Content Creation, Process, Identification of Target Audience and Social Media Platform, Defining Content Mix Using Sales Posts, Interactive Posts and Informative Posts, Impact of Colours, Tools Used for Content Creation Like Canva, GIFs, Instagram Stories, Pin Templates, YouTube Video Thumbnail, Etc

Unit III: Facebook and Instagram Advertising: Introduction to Facebook and Instagram Platform as Advertising and Marketing Media, Characteristics of Facebook and Instagram Marketing, Target Audience, Page Set Up, Post Types and Its Dimensions, Competitor Analysis, Case Studies

Unit IV: Twitter, LinkedIn, YouTube, Pinterest Advertising: Introduction and Overview of Platforms, Characteristics, How to Use These Platforms, Target Audience, Profile / Account Building, Crafting Summary for Marketing, Creating and Uploading Videos, Use of Hashtags. (Case Studies)

Unit V: Metrics of Social Media Marketing: What is to be Measured, Parameters to Measure Impact Volume, Reach and Engagement (Engagement Rates, Engagement Metrics), Influence, Share of Voice (Volume and Sentiment), Referrals and Conversions, Response Rate and Time (Case Studies)

Suggested Readings:

1. McDonald, J., *Social Media Marketing Workbook: How to Use social media for Business*, CreateSpace Independent Publishing Platform
2. Ford, J.E., *Social Media Marketing for the Future*, independently published
3. Tuten, T.L., Solomon, M.R., *Social Media Marketing*, Third Edition, SAGE
4. Barker, M., Barker, D.I., et al., *Social Media Marketing: A Strategic Approach*, 2nd Edition, Cengage Learning
5. Funk, T., *Advanced Social Media Marketing: How to Lead, Launch, and Manage a Successful Social Media Program*, Apress
6. Palkar, A., Jadhav, A., *Internet Age - Marketing with social media*, Himalaya Publishing House
7. Bhatia, P.S., *Social Media & Mobile Marketing*, Wiley

VIDYASAGAR UNIVERSITY
MBA: FOURTH SEMESTER
Paper Code: MBA- 411B
Subject: Web Analytics
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The objective of this paper is to enable students understand the fundamentals of Web Analytics. Students should be able to understand the process of setting up Google Analytics campaign. They should be able to understand the application of Google Analytics for business processes and incorporate Google Analytics tools for visualizing data in a simplified manner. Subsequently students will also understand consumer buying behavior in E-Commerce platforms.

Course Contents

Unit I: Fundamentals of Web Analytics: Introduction of Web Analytics, Importance of Web Analytics, Conversion Rate, Understanding User Behaviour, Measuring Outcomes

Unit II: Basics of Google Analytics: Understanding about Google Analytics, Metrics & Dimensions in GA; Creating GA Account, Understanding Account Structure in GA, Understanding Traffic Sources

Unit IV: Advanced Google Analytics: Application of Filters on GA Data, Understanding Sessions, Reporting Overview, Understanding Views in GA, Sorting with Filter

Unit IV: Visualisation Report: Audience, Behaviour and Acquisition Reports, Linking Google Analytics with Google Ads, Web Analytics Tools

Unit IV: Introduction to E-Commerce Analysis: Understanding Customer, Understanding Shopping Behaviour, Attracting New Customers and Measuring Behaviour

Unit IV: Fundamentals of Google Tag Manager: Getting Started with Google Tag Manager, Setting Up GTM, Collecting Data Using Different Parameters, Using Additional Tags for Marketing and Remarketing, Facebook Analytics

Suggested Readings:

1. Kaushik, A., *Web Analytics 2.0: The Art of Online Accountability and Science of Customer Centricity*, Sybex
2. Clifton, B., *Advanced Web Metrix with Google Analytics (3rd Edition)*, Sybex

3. Croll, A., Yoskovitz, B., *Lean Analytics: Use Data to build a better Start up*, O'Reilly Media
4. 4. Dykes, B., *Web Analytics Action Hero: Using analysis to gain insight and optimize your business*, Adobe
5. Hemann, C., *Digital Marketing Analytics (2nd Edition)*, Pearson
6. Hartman, K., *Digital Marketing Analytics: In theory and in practice (2nd Edition)*, Ostmen Bennettsbridge Publishing Services
7. Phillips, J., *Digital Analytics Primer*, Pearson

Specialization: Logistics and Supply Chain Management

VIDYASAGAR UNIVERSITY

MBA: FOURTH SEMESTER

Paper Code: MBA- 412A

Subject: Applications of IT and ITES in Supply Chain Management

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

On completion of this course, students would be able to appreciate the role and importance of Information Technology advances in Supply Chain Management.

Course Contents

Unit I: Role and Importance of IT in Logistics, Transportation and Supply Chain Management: IT Solutions for Supply Chain Management, Supply Chain Information Technology in Practice, IT as an Enabler/Driver of SCM

Unit II: Enhanced Role of IT in the New Normal: Virtual Meeting, Videoconferencing, Supply Chain Changes, etc.

Unit III: Latest Advances: Big Data, Analytics, Internet of Things, Artificial Intelligence, Robotics

Unit IV: IT Enabled Tools: Electronic Data Interchange, Personal Computer, Enterprise Resource Planning Systems, the Internet, Intranets and Extranets, the World Wide Web, Web-Enabled Relational Databases, Data Warehouses and Data Marts

Unit V: Enterprise Resource Planning (ERP): Introduction, What is ERP, Need, Advantages, Growth, ERP Vendors, ERP for SMEs

Unit VI: ERP and Related Technologies and Implementation: Business Process Reengineering (BPR), Management Information System (MIS), Decision Support Systems (DSS): Basics of Implementation.

Unit VII: Supply Chain Analytics: Need and Scope of Supply Chain Analytics, Basic Analytical Methods, Statistics in Supply Chains, Impact of Analytics on Decision Making

Unit VIII: Service Supply Chains: Service Supply Chains: Peculiarities and Challenges of Service Supply Chains, Role of IT Advances in Services

Suggested Readings:

1. Benny John, *Handbook of Logistics, Shipping & Commercial Terminologies*
2. Bloomberg, LeMay, Hanna; *Logistics*, Prentice Hall of India
3. Agarwal, D. K., *Textbook of Logistics and Supply Chain Management*, Laxmi Publications
4. Divakaran, Prakash Achari, *Supply Chain Management*, Horizon
5. Raghuram G & Rangaraj N, *Logistics and Supply Chain Management Cases and Concepts*, Laxmi Publications

VIDYASAGAR UNIVERSITY

MBA: FOURTH SEMESTER

Paper Code: MBA- 412B

Subject: E-Logistics

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

On completion of the course, students would get familiar with basic E-Logistics processes along with application of new technologies in the field of logistics.

Course Contents

Unit I: Role and Importance of IT in Logistics, Transportation and Supply Chain Management: IT Solutions for Supply Chain Management, Supply Chain Information Technology in Practice, IT as an Enabler/Driver of SCM

Unit II: Overview of E – Commerce: Internet, Intranet, Extranet, Definition, Goals of E- Commerce, Difference between E-Commerce and E- Business

Unit III: E-Commerce Models: Models of E- Commerce, Limitations and Advantages of E-Commerce, Entrepreneurial Opportunities and Boom

Unit IV: Foundations of Strategic Procurement: Introduction, Tools and Pillars of Strategic Procurement, Role of Automation in Strategic Procurement

Unit V: E-Banking and Its Importance in E-Logistics: Transactions: Inter Banking, Intra Banking, Electronic Payments, (Payment - Gateway Example), Securities in E-banking (SSL – Digital Signatures – Examples), Services Provided: ATM, Smart Card, ECS (Electronic Clearing System), NEFT AND RTGS

Unit VI: E- Security: Hazards of E-Transactions, Firewalls, Electronic Market / e- shop, Introduction to Security, Types of Securities, Security Tools, Network Security

Unit VII: IT and Project Management: E- learning, Models, Video Conferencing, Building Online Community, Virtual Office and Management

Unit VIII: Core Issues in E – Logistics: Logistics & Supplier Chain Management, Ware Housing Management, Transportation/ Distribution Management

Suggested Readings:

1. Benny John, *Handbook of Logistics, Shipping & Commercial Terminologies*, Notion Press
2. Bloomberg, LeMay, Hanna; *Logistics*, Prentice Hall of India
3. Agarwal, D. K., *Textbook of Logistics and Supply Chain Management*, Laxmi Publications
4. Wang Yingli and Pettit Stephen, Eds; *Managing Your Digital Supply Chains for Competitive Advantage*, Kogan Page
5. Divakaran, Prakash Achari, *Supply Chain Management*, Horizon

Specialization: Systems

VIDYASAGAR UNIVERSITY

MBA: FOURTH SEMESTER

Paper Code: MBA- 413A

Subject: Data Mining and Business Intelligence

Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objective

The aim of the course is to know how to derive meaning from huge volume of data and information. To understand how knowledge discovering process is used in business decision making, Big Data Management. Appreciate the techniques of knowledge discovery for business applications.

Course Contents

Unit I: Introduction: Data Mining, Text Mining, Web Mining, Spatial Mining, Process Mining, BI Process, Private and Public Intelligence, Strategic Assessment of Implementing BI

Unit II: Data Warehousing: Data Warehouse, Characteristics and View, OLTP and OLAP, Design and Development of Data Warehouse, Meta Data Models, Extract/ Transform / Load (ETL) Design

Unit III: Data Mining Tools, Methods and Techniques: Regression and Correlation, Classification, Decision Trees, Clustering, Neural Networks, Market Basket Analysis, Association Rules, Genetic Algorithms and Link Analysis, Support Vector Machine, Ant Colony Optimization

Unit IV: Classification and Prediction: Basic Issues Regarding Classification and Prediction, Classification by Decision Tree, Bayesian Classification, Classification by Back Propagation, Associative Classification, Prediction, Classifier Accuracy

Unit V: Modern Information Technology and Its Business Opportunities: Business Intelligence Software, BI on Web, Ethical and Legal Limits, Industrial Espionage, Modern Techniques of Crypto Analysis, Managing and Organizing for an Effective BI Team

Unit VI: BI and Data Mining Applications: Applications in Various Sectors, Retailing, CRM, Banking, Stock Pricing, Production, Crime, Genetics, Medical, Pharmaceutical

Unit VII: Business Intelligence and Its Impact: Introduction, Factors Driving Business Intelligence, Role of Data, Information, and Knowledge in Data Warehousing, Mining and DSS, BI in Organizations, Obstacles in BI

Suggested Readings:

1. Jaiwei Ham and Micheline Kamber, *Data Mining concepts and techniques*, Kauffmann Publishers
2. Efraim Turban, Ramesh Sharda, Jay E. Aronson and David King, *Business Intelligence*, Prentice Hall
3. W. H. Inmon, *Building the Data Warehouse*, Wiley India Pvt. Ltd
4. Ralph Kimball and Richard Merz, *the Data Warehouse Toolkit*, John Wiley
5. Cindi Howson; *Successful Business Intelligence: Unlock the Value of BI & Big Data*, McGraw-Hill
6. Swain Scheps, *Business Intelligence for Dummies*, John Wiley & Sons Inc
7. R. Delmaster, and M. Hancock, *Data Mining Explained*, O'REILLY

VIDYASAGAR UNIVERSITY
MBA: FOURTH SEMESTER
Paper Code: MBA- 413B
Subject: E-Commerce Programming Languages
Full Marks: 100 No. of Classes: 40 Hours 4 Credits

Course Objectives

Impart the students with higher level knowledge and understanding of contemporary trends in e-commerce and business finance. To provide adequate knowledge and understanding about E-Com practices and possess knowledge and IT skills for critical decision making.

Course Contents

Unit I: Introduction: Introduction to Electronic Commerce, Traditional Commerce and Electronic Commerce

Unit II: Technology Infrastructure: The Internet and the World Wide Web, Introduction to the Internet and the World Wide Web, Internet Protocols, Internet Engineering Task Force, IMAP Connection, Mark-up Languages and the Web, W3C XHTML Version 1.0, W3C HTML Page, XML Registry, W3C XML Pages, HTML and XML Editors (Microsoft FrontPage, Macromedia Dreamweaver), Intranets and Extranets

Unit III: Marketing Selling and Strategies on the Web: Web Marketing Strategies, Communicating with Different Market Segments, Beyond Marketing on the Web, Advertising on the Web, Creating and Maintaining Brands on the Web, Revenue Models for Selling on the Web, Digital Content Revenue Models, Targeted Classified Advertising Sites, Fee-For-Transaction Model, E-Trade, Event Tickets, Online Banking and Financial Services, Electronic Data Interchange to Electronic Commerce: Purchasing, Logistics, and Support Activities, Electronic Marketplaces and Portals

Unit IV: Web Auctions and Virtual Communities: Auction Overview, Web Auctions and Related Businesses, Auction-Related Services, Virtual Community

Unit V: The Environment of Electronic Commerce: International, Legal, Ethical, and Tax Issues: Language Issues, Trust and Culture, Infrastructure Issues, The Legal Environment of Electronic Commerce

Unit VI: Web Server Hardware and Software: Web Server Basics, Web Site and Internet Utility Programs, Spam Information Sites, Data Analysis Software, Link-Checking Utilities, Web Server Hardware, Web Hosting

Unit VII: Security Threats and Security System: Internet Security Issues, Intellectual Property Threats, Threats to the Security of Client Computers & Server Computers, Electronic Commerce Security Objectives, Protecting Electronic Commerce Communication Channels

Unit VIII: Payment Systems for Electronic Commerce: Online Payment, Payment Cards, Electronic Cash, Taxation and Electronic Commerce

Suggested Readings:

1. Larry Ullman, *Effortless E-Commerce with PHP and MySQL*, Tata McGraw Hill
2. Janice Reynolds, *The Complete E-Commerce Book: Design, Build & Maintain a Successful Web-based Business*, Taylor & Francis
3. Henry Chan, Raymond Lee, Tharam Dillon, Elizabeth Chang, *E-Commerce, Fundamentals and Applications*, Wiley
4. Dave Chaffey, *E-Business and E-Commerce Management*, Pearson
5. S. J. Joseph P. T; E, *Commerce: An Indian Perspective*, PHI Learning
6. Larry Ullman, *Effortless E-Commerce with PHP and MySQL*, New Riders Pub
7. Janice Reynolds, *The Complete E-Commerce Book*, CRC Press

Specialization: Media Management

VIDYASAGAR UNIVERSITY

MBA: FOURTH SEMESTER

Paper Code: MBA- 414A

Subject: Event Management

Full Marks: 100 No. of Classes: 40 Hours 4 Credits
